

### **Class Officer- Kelly Kilbourn; 2024**

My motivation behind my desire to become a class officer is to benefit my school community. I would like to help those who are not comfortable in their school environment to feel safe. Although school is primarily about students receiving an education, social issues in a school environment play a large role in one's learning. If one isn't comfortable in their learning environment, they will not be able to receive an education to its fullest potential. Through being a class officer, I would be able to develop leadership skills that will benefit me throughout high school and the rest of my life, yet also develop teamwork skills. Through working in a group with other individuals, I will be able to bounce ideas off others and expand my ideas to create projects to help benefit the school community, and make our school both a safe and equal environment for all students.
