

If I am elected to be a class officer this year, I will be more than eager and prepared to represent the class and the Daniel Hand community. To begin, I feel as though I am very qualified for this role, and any challenges it may present me. Throughout my middle school career, I was a member of both the student council and peer helper programs. This helped me to learn the wants and needs of the student body, and how to be an exemplary leader among my peers. I also have new ideas that I would like to incorporate, like an optional suggestion form to improve the class, and a class google classroom to make resources more accessible. If you choose to elect me, know that I care about the wants and needs of every member of the class, and I am ready to listen to any new ideas.
