## Superintendent's Message

Dear South Kitsap Students, Parents and Staff,

At South Kitsap School District, we believe that excelling in school includes academic success and healthy social and emotional development. It is within safe and respectful schools that children reach their full potential. Collectively, as parents, students and staff we share in the rights and responsibilities that create safe, caring, challenging, healthy and hopeful schools.

This "Rights and Responsibilities" handbook is a tool to inform staff, students and families of the policies, procedures, and laws relevant to promoting and enforcing our expectations for positive and caring learning environments. When we work together and share high expectations for responsible, respectful character, we can ensure students grow in positive ways and learn from teachable moments.

Please dedicate time to review this important information with your student(s) and consider this a resource guide to assist you in communicating the high expectations we share.

The key to student success lies in timely communication and trusting relationships between home and school. To "nurture, inspire and build" our students, we must work together in the great privilege and responsibility we have in educating children of strong character. Thank you for your partnership and reinforcing our high expectations for safe and respectful schools.

Best wishes for a successful 2021 – 2022 school year!

## Annual Attendance Letter

2021 - 2022

Dear Parent/Guardian,

This year, the South Kitsap School District is making a special effort to ensure that all students fully benefit from their education by attending school regularly. Attending school regularly helps children feel better about school—and themselves. Your student can start building this habit in preschool, so they learn right away that going to school on time, every day is important. Consistent attendance will help children do well in high school, college, and at work.

### DID YOU KNOW?

- Starting in kindergarten, too many absences (excused and unexcused) can cause children to fall behind in school.
- Missing 10 percent (or about 18 days) increases the chance that your student will not read or master math at the same level as their peers.
- Students can still fall behind if they miss just a day or two days every few weeks.
- Being late to school may lead to poor attendance.
- Absences can affect the whole classroom if the teacher has to slow down learning to help children catch up.
- By 6th grade, absenteeism is one of three signs that a student may drop out of high school.
- By being present at school, your child learns valuable social skills and has the opportunity to develop meaningful relationships with other students and school staff.
- Absences can be a sign that a student is losing interest in school, struggling with schoolwork, dealing with a bully, or facing some other potentially serious difficulty.
- By 9th grade, regular and high attendance is a better predictor of graduation rates than 8th grade test scores.

### WHAT WE NEED FROM YOU

We miss your student when they are gone, and we value their contributions to our school. We would like you to help ensure that your student attends regularly and is successful in school. If your student is going to be absent, please **contact your school's attendance secretary. The South Kitsap School District will require annually, this signed attendance agreement stating that you agree with the importance of daily attendance.**

### OUR PROMISE TO YOU

We know that there are a wide variety of reasons that students are absent from school, from health concerns to transportation challenges. There are many people in our building prepared to help you if you or your student face challenges in getting to school regularly or on time. We promise to track attendance daily, to notice when your student is missing from class, communicate with you to understand why they were absent, and to identify barriers and supports available to overcome challenges you may face in helping your student attend school.

### SCHOOL POLICIES AND STATE LAWS

It is important that you understand our school policies and procedures, as well as Washington State Law, to ensure your child is successful in school. State law for mandatory attendance, called the Becca Bill, requires children from age 8 to 17 to attend a public school, private school, or a district-approved home school program. Children that are 6 or 7 years-old are not required to be enrolled in school. However, if parents enroll their 6- or 7-year-old, the student must attend full-time. Youth who are 16 or older may be excused from attending public school if they meet certain requirements.

[We, the district, are required to take daily attendance and notify you when your student has an unexcused absence.](#)

If your student has three unexcused absences in one month, state law (RCW 28A.225.020) requires we schedule a conference with you and your student to identify the barriers and supports available to ensure regular attendance. The district is obligated to develop a plan that may require an assessment to determine how to best meet the needs of your student and reduce absenteeism.

In elementary school, after five excused absences in any month, or ten or more excused absences in the school year, the school district is required to contact you to schedule a conference at a mutually agreeable, reasonable time with at least one district employee, to identify the barriers and supports available to you and your student. A conference is not required if your student has provided a doctor's note, or pre-arranged the absence in writing, and the parent, student, and school have made plan, so your student does not fall behind academically. If your student has an Individualized Education Plan or a 504 Plan, the team that created the plan needs to reconvene. If your student has seven unexcused absences in any month or ten unexcused absences within the school year, we are required to file a petition with the juvenile court, alleging a violation of RCW 28A.225.010, the mandatory attendance laws. The petition may be automatically stayed, and your student and family may be referred to a Community Truancy Board, or you and your student may need to appear in juvenile court. If your student continues to be truant, you may need to go to court.

The **South Kitsap School District** established rules on attendance that will help you ensure your student is attending regularly. Please refer to the [Rights & Responsibilities Handbook](#) located on our website. [www.skschools.org](http://www.skschools.org).

## WHAT YOU CAN DO

- Set a regular bedtime and morning routine.
- Prepare for school the night before, finishing homework and getting a good night's sleep.
- Find out what day school starts and make sure your child has the required immunizations
- Don't let your student stay home unless they are truly sick. Keep in mind complaints of a stomachache or headache can be a sign of anxiety and not a reason to stay home.
- Avoid appointments and extended trips when school is in session.
- Develop back-up plans forgetting to school if something comes up. Call on a family member, a neighbor, or another parent.
- Keep track of your student's attendance. Missing more than 9 days could put your student at risk of falling behind.
- Talk to your student about the importance of attendance.
- Talk to your student's teachers if you notice sudden changes in behavior. These could be tied to something going on at school.
- Encourage meaningful afterschool activities, including sports and clubs.

Your signature below indicates that you have read and understand the attendance policies and procedures in South Kitsap School District.

### Athletic Code

#### Statement of Philosophy

Athletics and activities in South Kitsap School District strive first and foremost to enhance academic excellence and personal growth through involvement in athletics or activities. Our mission is to create an environment in which our student participants develop skills for life while achieving competitive success. All participants are expected to exemplify six core principles:

1. Trustworthiness
2. Respect
3. Responsibility
4. Fairness
5. Caring
6. Good Citizenship.

#### **We believe that all participants in extracurricular athletics and activities should:**

- Experience highly competitive and challenging situations, which promote mental poise and emotional stability.
- Learn the meaning and value of group loyalty and group morale. Experience the esprit de corps that is developed when members of a team practice together, suffer and endure together, and win and lose together.
- Develop an understanding and tolerance for the strengths and weaknesses of oneself and others. Learn to judge others by their behavior and contribution to the success of the team or group, and disregard economic, racial, or religious differences.
- Gain self-confidence, recognition, prestige, and group approval.
- Learn to work cooperatively as a member of a group striving for a common goal and realize that this goal cannot be successfully achieved unless one learns to abide by the rules and play the game fairly.
- Experience the gratification of winning and the humbling lesson of defeat.
- Share a common experience with parents or other family members who themselves may have participated in or enjoyed supporting high school sports and activities.
- Pursue victory and excellence with honor.

#### **Additional Obligations of Athletics and Activities Participants**

Extracurricular athletics and activities include all activities that are in addition to classroom instruction and have no bearing on a course grade or course credit. Because participation in extracurricular athletics and activities is considered a privilege, the student accepts the training rules, regulations, and responsibilities unique to the individual activity program in which he/she participates. In addition to the student conduct rules in Procedure 3240, extracurricular athletics and activities participants are also governed and are to abide by this Extracurricular Athletics and Activities Code. Participation in extracurricular athletics and activities within the South Kitsap School

District requires that the student maintain successful performance in academics, citizenship and that the student remain in good standing as defined within the Extracurricular Athletics and Activities Code. Those students who violate the Extracurricular Athletics and Activities Code shall be subject to corrective action which may include permanent exclusion from participation in school district extracurricular activities. Such

consequences may be in addition to corrective actions imposed by school administrators for violations of general student conduct rules.

Grades will be checked for all athletes on the Friday of the 6<sup>th</sup> week of the semester. Players who fall below SK standards will be informed on the following Monday and have one week to raise their grades so that they meet the requirements. Players who do not raise their grade in the ensuing week will be ineligible on Friday at 3 p.m.

Grades will be checked on the Friday of the 12<sup>th</sup> week of the semester. Players who fall below SK standards will be informed on the following Monday and have the remainder of the week to raise their grades so that they meet the requirements. Players who do not raise their grade in the ensuing week will be ineligible on Friday at 3 p.m.

### **Middle School Athletic Academic Eligibility:**

Students who wish to participate in athletics or activities must meet the scholastic eligibility standards of WIAA Rule 18.6. Students must be enrolled in a minimum of four full-time classes and have passed at least four full-time classes in the immediately preceding trimester/semester.

It is the belief of the South Kitsap School District that successful academic performance is important for all students. Therefore, to participate in athletics/activities our students must meet the following academic standard:

**“A”= 4 Points “B”= 3 Points “C”= 2 Points “D”= 1 Point “F”= 0 Points.**

- If passing all 6 classes, 11 points are required. (1.8 GPA)
- If passing 5 out 6 classes, 12 points are required. (2.0 GPA)
- Pluses and minuses are not figured into point total, and one point is added to each grade earned in an Advanced Placement class.
- Student participants with less than five classes, please refer to the chart below:

<u>Schedule</u>	<u>Passing All Classes</u>	<u>Failing 1 Class</u>
5 period schedule	9 points	10 points
6 period schedule	11 points	12 points
7 period schedule	13 points	14 points
8 period schedule	15 points	16 points

A student participant who fails to meet the above academic criteria during the preceding trimester/semester shall be placed on probation. The academic probationary period will be set by whichever of the following two standards results in a longer probationary period:

1. **WIAA standard (Rule 18.6.5):** \*\* 5 weeks from the start of the trimester/semester at the high school level and 3 weeks from the start of the trimester/semester at the middle level. \*\* Students will be eligible the 4<sup>th</sup> Monday of the school year.
2. **SKSD standard:** 20% of contests or performances.

Student participants must meet the SKSD academic standard at the end of their probationary period to resume competing or performing. Student participants are required to attend all team practices and meetings during their academic probationary period.

### Season 1 Eligibility:

Student academic eligibility for athletics will be determined by grades from the semester that ended the previous June. Students must meet the requirements listed above. Students who fail to meet the WIAA standard are ineligible for competition through the first 3 weeks of school (3 or more days of school shall constitute a full week). Students will be eligible the Monday of the 4<sup>th</sup> week provided they meet academic standards listed above.

Students who meet WIAA academic standards but fall below SKSD standards will miss the 20% of the season (Football: 1 game; Volleyball: 2 games; Cross Country 1 contest. Note: Jamborees do not count as contests).

The school athletic director will perform a grade check on the Friday of the 4<sup>th</sup> week of the season. Student participants who fall below the SK academic standards will be notified the following Monday. Student participants will have until the ensuing Friday to show they are meeting standard. If the student participants are not to standard by Friday, the student participants will be ineligible for games/matches until they can demonstrate they are meeting standard. They will be expected to continue to attend practices, meetings and games during the suspension period (except in cases where coaches excuse student participants to work on improving their academic standing).

#### Season 2, 3, 4 Eligibility:

- A. Student academic eligibility for athletics will be determined by a check of current grades at the beginning of the season. Students must meet the requirements listed above. Student participants who fall below academic standards can still tryout and be selected for the team but are ineligible for games/matches until they can demonstrate they are meeting standard. Student participants will be expected to continue to attend practices, meetings and games during the suspension period (except in cases where coaches excuse student participants to work on improving their academic standing).
- B. The school athletic director will perform a grade check on the Friday of the 4<sup>th</sup> week of the season. Student participants who fall below the SK academic standards will be notified the following Monday. Student participants will have until the ensuing Friday to show they are meeting standard. If the student participants are not to standard by Friday, the student participants will be ineligible for games/matches until they can demonstrate they are meeting standard. Student participants will be expected to continue to attend practices, meetings and games during the suspension period (except in cases where coaches excuse student participants to work on improving their academic standing).
- C. Age: A student must be less than twenty (20) years of age at the beginning of that sport season.
- D. Residence: Should your parent/guardian not live in the South Kitsap School District service area; you must clear your eligibility with the athletic director before participating to avoid jeopardizing the team with forfeiture of interscholastic contests.
- E. Amateur Standing: In order to maintain amateur standing, the student/athlete may not:
  - 1. Accept merchandise of more than \$500 in value;
  - 2. Accept cash awards;
  - 3. Enter competition under a false name; or
  - 4. Sign or ever have signed a contract with or play or ever have played for a professional team or a professional sport (whether for a money consideration or not).
- F. Season Limitation: After entering the ninth grade, a student shall have four (4) consecutive years of interscholastic eligibility. Repeating any grade, nine through twelve, whether a student participates or not will count towards a student's four (4) consecutive years of high school eligibility.
- G. Exchange Students: Students from a foreign country must fill out a form and be cleared for participation by the Washington Interscholastic Activities Association before competing on an interscholastic team.

#### Requirements for Participation

- A. Complete district participation Form 110, available at school sites or online at [www.skschools.org](http://www.skschools.org).

Form 110 includes:

- 1. Demographic information
- 2. Parent permission

3. Proof of insurance: Insurance is required for athletic participation and recommended for students in other activities. The parent/guardian is responsible for payment for medical care which results from injury. It is recommended that insurance cover the following:

G. Pay all fines prior to first turnout.

### Conduct and Citizenship Standards

The essential elements of character-building and ethics in sports are embodied in the concept of sportsmanship and six core principles: trustworthiness, respect, responsibility, fairness, caring and good citizenship.

1. Students who wish to participate in extracurricular activities are visible representatives of their team, school and community. They are expected to maintain high standards of conduct in school and in the community and during all school related travel and events. They are expected to assume the responsibilities of a positive role model. Conduct that detracts from those expectations, such as chemical use, criminal behavior, or unsportsmanlike behavior, will result in the appropriate corrective action.

2. Sportsmanship and integrity are solid expectations of extracurricular participants. Display of unsportsmanlike conduct, use of profanity, game ejections, technical fouls, unsportsmanlike conduct penalties or other offenses will result in the appropriate corrective action.

3. Harassment, discrimination or hazing (initiation) will not be tolerated. This includes all such behavior that occurs on the basis of gender, race, ability, religion, or position, or for any other reason. Violations of these expectations will result in the appropriate corrective action and, if applicable, referral to law enforcement officials.

4. Students who are suspended from school may not practice or compete during the period of suspension. Serious classroom discipline problems will result in the appropriate corrective action.

### Use of Drugs, Alcohol, and Tobacco

A. Rule: A student must be free from actual or constructive possession of drugs, alcohol, or tobacco products on or off-campus, in-season or out-of-season, to be eligible to participate in extracurricular activities.

B. Definitions:

**Actual Possession** — The act of having a substance in one's custody or control.

**Constructive possession** — A circumstance in which a student has knowledge that alcohol, drugs, or tobacco are available and/or are being unlawfully used by others and the student fails to remove himself or herself from the premises as soon as it is reasonably safe to do so

**Investigative Discovery** — Occurs when an administrator or coach determines after investigation that a student athlete has committed an athletic code infraction when it was not admitted by the student.

**In-season** — The time period from the first day athletics/activities begin in August through the last day of the school year. Summer camps run by the SKSD or non-SKSD camps chaperoned by SKSD employees will be considered in-season.

**Out-of-season** — The time period from the first day summer vacation until the first day of athletics/activities in August.

**Self-Admittance Discovery** — Occurs when a student athlete admits that he or she has committed an athletic code infraction and cooperates in any investigation.

### **Corrective Action for Drugs or Alcohol Related Exceptional Misconduct/Citizenship Violations**

**1st Offense:** Exclusion from competition for 25% or 50% of the regular season. If the rule violation is determined by investigative discovery, the exclusion will be for 50% of the scheduled contests. If the rule violation is determined by self-admittance discovery, the exclusion will be for 25% of the scheduled contests. All practice requirements will remain. Required drug/alcohol insight class/screening and follow all recommendations. If there is less than 25% or 50% of the season remaining suspensions will carry over into the postseason. This may cause the participant to be eliminated from postseason competition. If violation occurs during post season, participant will be removed from the team for the remainder of competition.

**2nd Offense:** Exclusion from athletic/activity programs for one calendar year from the date of the second violation.

**3rd and Subsequent Offenses:** Expulsion from athletic/activity programs for remainder of school career.

### **Procedures for Corrective Action**

- A. The head coach/advisor, principal and /or assistant principal, and activities director shall jointly make decisions in relation to corrective action resulting from violation of the Extracurricular Athletics and Activities code.
- B. The student participating in any extracurricular activity will be notified of the reason(s) for any corrective action. Also, he/she will be notified how he/she may make necessary corrections.
- C. Parents will be notified, in writing, of any probation or exclusion from contests.
- D. Appeals of corrective actions for violations of the Extracurricular Athletics and Activities Code should be promptly directed to the Athletics/Activities Appeal Board. The Board consists of the following individuals:
  1. The Athletic Director/Activities Director from the student's school
  2. A principal or assistant principal from the student's school
  3. A principal or assistant principal from another secondary school
  4. A coach from the student's school
  5. One district employee selected by the student (a teacher, coach, counselor or administrator).
- E. The Athletics/Activities Appeal Board shall notify the parents, in writing, of their decision regarding the appeal.
- F. Parents may appeal the Athletics/Activities Appeals Board's decision to the superintendent or their designee.

### **Parent/Coach Communication**

- A. Communication to expect from your athlete's coach:

1. Philosophy of the coach.
2. Expectations the coach has for your son/daughter.
3. Locations and times of practices and contests.
4. Team requirements: equipment, off-season training, etc.
5. Procedures you should follow should your son/daughter become injured during participation.
6. Participant conduct code and consequences for not following these guidelines.
7. Requirements to earn a letter.
8. Disposition of lost/outstanding equipment at the end of the season
9. Communication concerning your athlete's role on the team and how he/she fits into the future of the program.

B. Communication coaches expect from parents:

1. Concerns expressed directly to the coach first.
2. Notification of schedule conflicts well in advance.
3. Specific concerns with regard to a coach's philosophy and/or expectations.

C. As your son/daughter becomes involved in the athletic programs in our district, he/she will experience some of the most rewarding moments of his/her life. It is also important to understand that there will be times when things do not go the way your son/daughter wishes. At these times, discussion with the coach may be the quickest and most effective way to clear up issues, avoid misunderstandings, and create opportunities for life lessons.

D. Appropriate concerns to discuss with coaches:

1. The treatment of your son/daughter, psychologically and physically.
2. Ways to help your son/daughter improve.
3. Concerns about your son/daughter's behavior.

E. Some situations may require a conference between the coach, the athlete, and the parent. These are encouraged. It is important that all parties involved have a clear understanding of the other person's role and position. When these conferences are necessary, the following procedures should be followed to help resolve the concern. If you have a concern to discuss with a coach, please follow this procedure:

1. Please do not approach a coach before or after a contest or practice. These can be emotional times for both the parent and the coach. Meeting at these times usually does not work well for any of the parties involved.
2. Your son/daughter should first talk with the coach about his or her concerns.
3. Call to set up an appointment with the coach.
4. If the coach cannot be reached after a reasonable time, contact the Director of Athletics and he will arrange an appointment for you.
5. If your meeting with the coach does not provide a satisfactory resolution, set an appointment with the building Athletic Director to discuss the situation.
6. If you elect to further pursue a concern you have regarding your son/daughter's experience in one of our athletic programs, please make contact as follows:

- a. Principal
- b. District Athletic Director
- c. Superintendent or designee

F. At times it may be difficult to accept the fact that your student is not playing as much as you or he/she would like. Coaches are professionals who make judgment decisions based on what they believe it is best for the team and all involved. As you have seen from the list above, certain things can and should be discussed with the coach. We ask that other things, such as those that follow, be left to the discretion of the coach.

1. Playing time
2. Team strategy
3. Matters concerning other student-athletes

**Section 2: Attendance – Excused & Unexcused Absences**

Board Policy and Procedure 3122 and 3122P [https://www.skschools.org/district/policies\\_procedures](https://www.skschools.org/district/policies_procedures)

Daily attendance in school is absolutely one of the best ways for students to be successful in their education. Your student can start building this habit in preschool, so they learn right away that going to school on-time, every day is important. There a wide variety of reasons that students are absent from school; illness, health condition or medical appointments, or other excused absence consistent with WAC 392-401. When a student is absent from school, or plans to be (excused or unexcused), parents/guardians need to report the absence to their students’ school within 24 hours of the absence when possible, either by phone or email. Elementary students with five or more excused absences in one month or ten or more in a school year, the school will schedule a conference to identify any barriers and help with finding supports and/or resources that may be available. Any absence from remote learning is unexcused unless it meets one of the criteria in WAC 392-401A-020.

Unexcused Absences/Truancy	Action
1 unexcused absence within any month.	Notify parent/guardian by phone or email.
3 unexcused absence within any month.	Conference with student and/or parent to develop a plan of action for regular attendance.
Two or more, but before 5 unexcused absences.	Parent conference Students 504 plan team will meet to consider the reasons for absences.
No later than 7 unexcused absence in any month.	District will enter into an agreement with parents and student to improve student attendance. Referral to the Community Truancy Board, or File a petition and affidavit with the juvenile court. RCW 28A.225.010.
No later than 15 unexcused absence in any month or 10 in a school year.	District will file a petition and supporting affidavit for a civil action in juvenile court.

**Dress Code –** Policy and Procedure 3224 [https://www.skschools.org/district/policies\\_procedures](https://www.skschools.org/district/policies_procedures)

Students are expected to dress appropriately for school. The District Dress Code applies to ALL school days and at ALL school events:

- Do not wear clothing or accessories that present a health or safety hazard or would damage school property.
- Clothing must cover the torso/midriff, cleavage, and undergarments.
- Clothing, accessories or displays associated with gang affiliated behavior are not permitted.
- Sunglasses are not to be worn indoors.
- Clothing, accessories such as face coverings, or jewelry that displays or promotes alcohol, tobacco, drugs, weapons, illegal actions, or obscene and vulgar messages or interrupts the educational process are not permitted.

**Field Trips/Interscholastic Activities**

Field trips, excursions, and outdoor education are part of a student’s education. As these events are out of the ordinary, school field trips are an area ripe with possibilities for injuries and liability. All school rules and policies will therefore apply and will be enforced while students are participating in any such activity.

## High School Graduation Requirements – Policy and Procedure 3412

[https://www.skschools.org/district/policies\\_procedures](https://www.skschools.org/district/policies_procedures)

If students fulfill graduation requirements by the end of the last term of their senior year, they may participate in graduation ceremonies and will be awarded a diploma. Graduation ceremonies will be conducted in the following manner:

1. Each participating student must participate in graduation ceremony rehearsal.
2. Rent or purchase a cap and gown as designated by the school administration.
3. Students who participate will be expected to use good taste in their choice of accessories.
4. Each student will be expected to cooperate with the class advisor and participate in all parts of the graduation ceremony.
5. Failure to comply with the above requirements will automatically forfeit a student's privilege of participation in the graduation ceremonies.
- 6.

### Section 3: Student Safety Walking, Biking and Riding Buses

Policy and Procedure 6605 [https://www.skschools.org/district/policies\\_procedures](https://www.skschools.org/district/policies_procedures)

The district will adopt a comprehensive school trip safety program that addresses bus safety, walking and biking route plans, vehicle access to the school, circulation and parking at the school, pedestrian circulation on and around the school campus and safety education and enforcement.

#### Safety Advisory Committee

The superintendent will establish a Safety Advisory Committee (SAC) pursuant to WAC 392- 151-017 to develop and maintain a comprehensive school trip safety program. The committee will also develop and maintain the school patrol program in compliance with RCW

46.61.385 and review and approve each school's Safe Routes to School plan. The superintendent will develop specific responsibilities and reporting relationships of the committee, including how the SAC relates to individual school safety programs.

#### Bus Safety

The superintendent or designee will develop written rules establishing the procedures for bus safety and emergency exit drills and for student conduct while riding on buses. The procedures for bus safety will include rules restricting bus access to students and those persons authorized by the superintendent and/or his or her designee(s) to ride the bus to and from any school activity

The bus driver is responsible for the safety of his/her passengers, particularly for those who cross a roadway after leaving the bus. No bus driver shall order or allow a student to disembark at other than his/her customary boarding or alighting place, unless so authorized by the superintendent or designee. In order to assure the safety of all, the bus driver may hold students accountable for their conduct during the course of transportation and may recommend corrective action against a student. Bus drivers are expressly prohibited from using corporal punishment. Bus drivers are expressly prohibited from allowing anyone to board the bus who is not a student, or a person authorized to ride the bus by the superintendent and/or his or her designee(s).

#### Emergencies

In the event of an accident or other emergency, the bus driver will follow the emergency procedures in accordance with the School Bus Driver Handbook (SPI). A copy of the emergency procedures will be in each bus. To ensure the success of such emergency procedures, each bus driver will conduct an emergency evacuation drill within the first six weeks of each school semester. The district will conduct such other drills and procedures as may be necessary.

### Student Conduct on Buses

The superintendent or designee will establish written rules of conduct for students riding school buses. Such rules will include as a minimum, the requirements of WAC 392-145-021 and will be reviewed annually by the superintendent or designee and revised if necessary. If the rules are substantially revised, they shall be submitted to the board for approval.

At the beginning of each school year, a copy of the rules of conduct for students riding buses will be provided to each student who is scheduled to ride a school bus. The classroom teacher and/or bus driver will review the rules with the students at or near the beginning of each school year. A copy of the rules will be available upon request at the district office.

### Safe Routes to School Plan

Pursuant to WAC 392-151-025, all elementary schools that have students who walk to and from school are required to develop a suggested route plan. All schools are encouraged to have a walking/biking route plan in place. To develop the school walking/biking route plans, the superintendent or designee will establish a Safe Routes to School committee.

The committee will conduct a walking and biking audit within a one-mile radius of the school and develop a Safe Routes to School walking/biking map or plan. The plan will recommend the best routes for students walking to and from school, as well as the best routes to and from school bus stops. In developing the plan, the committee will consider, at a minimum, the following:

- traffic patterns;
- existing traffic controls;
- existing school patrols;
- limits on the number of school crossings so that students have to move through the crossings in groups;
- allowing only one entrance-exit from each block to and from school;
- routes that provide the greatest physical separation between walking children and traffic;
- routes that expose students to the lowest speeds and volumes of moving vehicles; and
- routes that include the fewest number of road or rail crossings;

The superintendent or designee will review the plan with the Safety Advisory Committee and, upon its approval, distribute the plan to all students with instructions that it be taken home and discussed with parents. The plan will be routinely updated as conditions change. The superintendent or designee will include the plan in the district's School Wellness Plan to encourage parents and students who walk and bike to school to use the recommended routes.

### Student Conduct on Buses

Any misconduct by a student, which in the opinion of the bus driver or bus supervisor, is detrimental to the safe operation of the bus will be enough cause for the principal to suspend the transportation privilege.

Rules of conduct for students riding buses:

- A. Students will obey the driver and any aide assigned to the bus by the district. The driver is in full charge of the bus and passengers and will be obeyed. If an aide is assigned to the bus by the district, he/she shall be responsible for the safe operation of the bus. When transporting classes or teams, the teacher or coach shall be primarily responsible for the behavior of the students. Students shall obey both the driver and the teacher, coach or other staff member.
- B. Students will ride only on their assigned bus unless written permission to do otherwise has been received by school officials.
- C. Students will not be permitted to leave the bus except at their regular stop unless written permission to do otherwise is received by school officials.

- D. Students assigned seats will use only that seat unless permission to change is authorized by the driver.
- E. Students will observe rules of classroom conduct while riding on buses. Noise will be kept down to avoid distracting the driver. Students will refrain from the use of obscene language or gestures.
- F. Students will not smoke or ignite lighters or matches on buses.
- G. Students will not eat on buses, except when specifically authorized and supervised by an accompanying teacher, coach or other staff member. Buses shall be kept clean.
- H. Students will not open bus windows without the driver's permission.
- I. Students will not extend any part of their body out of bus windows at any time.
- J. Students will not carry or have in their possession items that can cause injury to passengers on the bus. Such items include, but are not limited to, sticks, breakable containers, weapons or firearms, straps or pins protruding from clothing, large, bulky items which cannot be held or placed between legs, etc. Books and personal belongings shall be kept out of aisles.
- K. Students will not have animals on buses, except one that is aiding a disabled student.
- L. Students will not sit in the driver's seat or to the immediate right or left of the driver.
- M. Students will refrain from talking to the driver unless necessary.
- N. Students will always go directly to a seat once inside the bus and remain seated unless the driver instructs otherwise.
- O. Students will get on/off the bus in an orderly manner and will obey the instructions of the driver or school safety patrol persons on duty. There will be no pushing and shoving when boarding or leaving the bus. Once off the bus, students will adhere to rules for pedestrians.
- P. Students will never cross the roadway behind a bus unless they use pedestrian crosswalks or traffic lights.
- Q. Students will stand away from the roadway curb when any bus is approaching or leaving a stop.
- R. Students going to and from their bus stops where there are no sidewalks will walk on the left-hand side of the roadway facing oncoming traffic. Students will go directly to their home after leaving the bus.
- S. Students will use lap belts on buses when available.
- T. Students will follow emergency exit drill procedures as prescribed by the driver.
- U. Students will not tamper with emergency doors or equipment.
- V. Students will remain quietly seated, not exhibit disruptive behavior and turn off all noise- making devices at highway rail grade crossings.
- W. Parents of students identified as causing damage to buses will be charged with the cost of the incurred damage. Students causing the damage may be suspended from transportation.
- X. Student misconduct will constitute sufficient reason for suspending transportation privileges.

### Disciplinary Procedures for Bus Incidents

Principals are responsible for correcting students whose abusive behavior results in a bus-incident report or violates the rules above. The principal shall provide supervision during bus arrival and departure times and receive reports (written and oral) from the drivers. The principal will ensure that students comply with the specified regulations. Principals must maintain open lines of communication among school officials, bus drivers and the transportation department.

When waiting for a bus, or going to and from a bus stop, students are responsible for conducting themselves according to the social and legal mores that apply to adults in public. That is, they must not abuse or cause damage to private or public property; they must not use obscene language or gestures; they must not engage in criminal activity. Failure to adhere to these standards may result in formal complaints by citizens which may be forwarded to

principals for possible corrective action.

Students provided with transportation are responsible for complying with the district's rules of conduct for students riding buses. Failure to adhere to these rules, or abusive behavior towards the public, driver, fellow passengers or the vehicle constitutes justification for initiating corrective action against a student.

Abusive behavior on the part of a student riding a bus may result in a written report when, in the opinion of the driver or bus supervisor, there has been an infraction of the rules applicable to student conduct. The written report is the primary means by which a driver or bus supervisor communicates a student's conduct to the school and transportation department. This report, in most cases, reflects an infraction of rules which is repeated by the student after his/her having received previous oral warnings from the driver or bus supervisor. In order for drivers and bus supervisors to effectively maintain control on their buses, it is expected that action be exercised by principals when receiving such a report.

When a student's conduct constitutes an infraction of the rules, the driver or bus supervisor will complete a report on the student describing the incident or damage that occurred. The driver or bus supervisor will provide the student with a copy of the report, hand the original report to the principal and submit a copy to the transportation supervisor. The copy of the report concerning special education students shall be given to the principal for disposition.

The principal upon receiving the report will investigate the circumstances surrounding the incident and act according to the procedures set forth in the district's policies pertaining to corrective action and punishment. When investigating the incident, the primary concern must be with respect to the safe transport of students. Corrective action, if necessary, should be consistent throughout the district as follows:

- A. Warning: When a student's misconduct is of a minor nature which does not jeopardize the safety or welfare of other students or the operation of the bus.
- B. Suspension: When a student's misconduct is deemed to jeopardize the safety of bus passengers and operation, or when repeated warning notices fail to correct abusive behavior, or when a student incurs damage to the bus.
- C. Expulsion: When a student's misconduct is of such nature that the safety of the bus operation and/or of the occupants was willfully and seriously threatened (i.e., student assaulting the driver).

The action taken by the principal will be annotated on the report and forwarded to the student's parent for signature. The transportation department will be notified.

Drivers will be advised to file assault and battery charges against students who physically assault them. Under no circumstances will the driver retaliate in kind and physically assault the student as this conduct may subject him/her to legal action.

The student or parent of a student who has been suspended from receiving transportation entitlements may appeal the principal's decision by submitting a written statement to the superintendent. The superintendent will render a decision after evaluating the issues and facts involved. If the decision is based on issues unrelated to those described in the district's rules of conduct for students riding buses, the decision will require board concurrence before implementation.

### Emergencies

The transportation supervisor will review the contents of the School Bus Driver's Handbook with each driver prior to the beginning of each school year. Each driver, in turn, is expected to follow the procedure as outlined in the handbook. At the start of each field trip or extracurricular trip, the school bus driver will review with all passengers the location and use of the emergency exits, emergency

equipment and any district emergency procedures.

In the event of a collision, the driver will contact the transportation supervisor who will:

- A. Determine the nature of the collision;
- B. Contact emergency services if there is reason to believe that there are injuries which require immediate attention;
- C. Contact the state patrol regarding the accident;
- D. Advise the superintendent of schools;
- E. Investigate the accident and gather the names of all students and witnesses;
- F. Dispatch another bus to transport the students to their destinations;
- G. Contact the parent(s) or guardian(s) of any students who are injured.

To facilitate the responsibilities assigned to the transportation department, the supervisor, in cooperation with the building principals, will compile a list of students, including addresses and phone numbers that are authorized to ride each bus route.

## **Section 4: Discipline Process – Student Discipline**

Policy and Procedure 3241 and 3241P [https://www.skschools.org/district/policies\\_procedures](https://www.skschools.org/district/policies_procedures)

In order to support safe, nurturing and productive learning environments, the South Kitsap School District encourages schools to take an instructive, restorative, and corrective approach in regard to student behavior. The goals of these approaches are to correct inappropriate or unacceptable behavior and to assist students in developing empathy for others, accepting responsibility for their actions, developing the capacity to improve their behavior, and repairing the harm caused as a result of their behavior.

Schools are encouraged to establish clear expectations for student behavior and methods for supporting students' ability to meet these expectations. When appropriate, schools may identify additional learning opportunities which may support students' ability to meet expectations through a multi-tiered system of support.

When appropriate, schools are encouraged to support students in understanding harm that has been caused through a student's action, whether intentional or unintentional, and identifying the needs of the students involved. Efforts will be taken to both encourage accountability and responsibility by the author of those actions as well as to reintegrate all students into the school or classroom community. This approach may be supported using restorative contracts, impromptu conferences, restorative circles, or formal conferences.

In those instances, when corrective actions are determined to be necessary, schools may consider both the severity and frequency of the behavior when determining which corrective action is most appropriate.

While administrators normally apply the concept of progressive discipline in working with students to bring about changes in inappropriate/unacceptable behavior, there may be situations where progressive discipline is not appropriate and prudent. In such cases, South Kitsap School District reserves the right to immediately suspend or expel where exceptional misconduct is involved (i.e. conduct that is so frequent or serious in nature, in terms of the disruptive effect upon the operation of the school, as to warrant an immediate suspension or expulsion). This may also apply to students who have committed serious violations or acts in the community and may pose a threat or disruption to other students at school.

### **Discipline and Confidentiality:**

Federal law prohibits school from disclosing personally identifiable information from a student's education record that would be considered harmful or an invasion of privacy if disclosed. This includes revealing any information about student discipline. While we understand at times a parent may want to know if and how another student was reprimanded for an incident, please be aware information from student records shall be disclosed only in accordance with the requirements of the Family Educational Rights and Privacy Act (FERPA) of 1974, 20 USC 1232g and adopted District policy.

### **Asbestos Management Plan**

The Environmental Protection Agency (EPA) requires that school districts notify parents, teachers, and employee organizations annually that an Asbestos Hazard Emergency Response Act (AHERA) management plan has been developed for and is maintained by the South Kitsap School District.

To that end the South Kitsap School District has developed an asbestos management plan for every facility and a copy of the plan is in the main office of each of those facilities. Additionally, a database of the master records and a back-up of physical records are maintained at Facilities and Operations at 1650 SE Cedar Rd., Port Orchard, WA 98367.

Every six months trained district staff members perform a required surveillance of known and presumed asbestos materials within their respective buildings. Every three years an additional inspection is performed by an accredited third-party contractor. All documents are updated when small scale, short duration projects are accomplished.

If you have any questions regarding the AHERA program at South Kitsap School District, please contact Joe Riley, Director, Facilities & Operations at 360-874-6000. This notification will be repeated annually.

## Pesticide Notification

In 2001 the Washington State Legislature enacted a law requiring school districts to develop policies and notification procedures related to the application of pesticides at school facilities. The South Kitsap School District plan for complying with this legislation is contained in Policy No. 6895 entitled, PESTICIDE NOTIFICATION, POSTING, AND RECORD KEEPING REQUIREMENTS

The South Kitsap School District has established a recognized Integrated Pest Management (IPM) program. The district relies on an environmentally sensitive, common sense approach to pest control that focuses on custodial practices, landscaping, and other preventive measures. The program is devoted to removing the root causes of landscape and structural pest infestations as a methodology for limiting the use of pesticides. The District uses licensed third- party vendors for pesticide applications and a list of pesticides used by those vendors is available and can be obtained from the office of the Facilities & Operations Department.

The procedure requires that at least 48 hours before the application of a pesticide to school grounds or facilities, the District shall notify students, their families and staff of the planned application via a posted notice with the heading, "Notice: Pesticide Application." This information will be posted in a prominent place in the building office in addition to being provided separately, in writing, to interested families and staff. Each site may establish a "request to notify" registration system for families and staff who desire to be individually notified in the event of a pesticide application. If a notification registration system is not maintained at a site all student families and staff will be informed in writing by the building administration prior to an application. On the day of the application additional warning signs will be posted at the locations to be treated.

Written pre-notification is not required if the application of pesticide can be scheduled during a timeframe where classes will not be held for at least 48 hours after the treatment. However, when this option is used, treated areas will still be posted with warning signs. The law also allows for the use of post-notification procedures whenever an emergency pesticide application is needed to avert an immediate student health hazard such as an infestation of stinging insects. If you have any questions regarding the use of pesticides in the South Kitsap School District, please contact your school's office staff or

Joe Riley, Director, Facilities & Operations at 360-874-6000.

### Emancipated Students

Students 17 and younger that have petitioned the courts and been awarded a Decree of Emancipation will be responsible for their own education. Once a student has been emancipated, and appropriate paperwork has been filed with the school, no parent/guardian contact will be required.

### Child Find

South Kitsap School District conducts regular activities to identify children with disabilities, aged birth through 21 years of age. A disability may present a delay in learning, speech or language, motor skills, or social and emotional abilities. Parents or staff that suspect a school aged child of having a disability shall contact their neighborhood school's School Psychologist or Principal. If you believe you child may have a disability and you are interested in having him or her screened, contact the Office of Special Services at (360) 443-3625.

## **Section 11: Students with a Disability**

### Special Education and Related Services for Eligible Students Policy 2161

Students eligible for special education may be disciplined consistent with the disciplinary rules that apply to all students. The district will determine on a case by case basis whether discipline that is permitted under WAC 392-400 should occur. However, students eligible for special education must not be improperly excluded from school for disciplinary reasons that are related to their disability or related to the district's failure to implement a student's IEP. The district will take steps to ensure that each employee, contractor and other agents of the district responsible for education or care of a student is knowledgeable of special education disciplinary rules and state regulations governing implementation of special education services pursuant to the Individuals with Disabilities Education Improvement Act (IDEA) of 2004 are addressed in Chapter 392-172A WAC and Free Appropriate Public Education (FAPE).

Parents and/or adult students have the right to request a due process hearing to appeal the disciplinary placement decision or if they disagree with a determination that the student's behavior was not a manifestation of the student's disability. The hearing is requested by filing a due process hearing request pursuant to WAC 392-172A-05080 and 392-172A-05085. Parents/Guardians may also challenge disciplinary actions on behalf of the students who has not been determined eligible for special education services may assert the protections if the district had knowledge that the student was eligible for special education before the behavior that precipitated disciplinary action occurred. Refer to Policy and Procedure 2162  
[https://www.skschools.org/district/policies\\_procedures](https://www.skschools.org/district/policies_procedures)

### **Section 504 Eligible Students**

#### Education of students with Disabilities Under Section 504 Policy and Procedure 2162

Section 504 regulations require a school district to provide a "free appropriate public education" (FAPE) to each qualified student with a disability who is in the school district's jurisdiction, regardless of the nature or severity of the disability. Section 504, FAPE consists of the provision of regular or special education and related aids and services designed to meet the student's individual educational needs as adequately as the needs of nondisabled students are met.

Discipline of students protected under Section 504 plan requires careful consideration of whether the student's behavior is related to the disabling condition. When a student poses an immediate and continuing danger to himself or herself and/or others or to disruption of the educational process, (see WAC 180-40-95), an emergency expulsion of up to 10 consecutive school business days may be used. When a student has engaged in misconduct which is causally related to his or her disability aside from emergency expulsion (see above), expulsion or suspension should not be imposed for more than 10 school days and the suspension/expulsion reflect a pattern of exclusion. Instead, the need for additional evaluation and/or a change of placement should be considered. In this circumstance, the principal or designee responsible for the imposition of discipline, the Section 504 compliance officer, and a team of professionals from the school who are knowledgeable about the student will meet to determine if there is a need for further evaluation or a change of program or placement. If further evaluation is recommended, it will be conducted as soon as possible. If the student poses an immediate risk to him or herself or disruption of the educational process the procedure above may be instituted by the principal or designee.

Section 504 students who are recommended for suspension or expulsion solely on the basis of the current use or possession of illegal drugs, alcohol, or substances are not entitled to Section 504 Committee placement re-evaluation or determination of relationship between such use or possession and the students' disabilities, or to the procedural safeguards afforded to students with a disability by section 504 procedures.

### **Section 12: Student Records/Family Educational Rights and Privacy Act**

- School staff participate in regular emergency preparedness and response training.
- Substance abuse prevention programs are presented to students regularly.
- School Resource Officers (SRO's) train-regularly to respond effectively to any situation.

### Safety and Security – Tip Line

We all have the responsibility to keep each other safe. The general guidance is “If you see something, say something.” In the case of an emergency, please call 911. In other instances please use the Tip Line submission form which is available on the district website at [https://www.skschools.org/district/tip\\_line](https://www.skschools.org/district/tip_line) and on every school website. The tip line may be anonymous or not depending on user prefer.

## Section 14: Student Technology Responsible Use and Safety

For more information please visit: [https://www.skschools.org/depts/technology/student\\_handbook](https://www.skschools.org/depts/technology/student_handbook)

### Governing Policies

Students are expected to abide by district policies and procedures for appropriate technology use.

Policy 2022 (Electronic Resources & Internet Safety) outlines that staff and students need to be proficient and safe users of information, media, and technology to succeed in a digital world. This will include appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyberbullying awareness and response.

Policy 3235 (Protection of Student Personal Information) outlines the district responsibility for protecting student information as students use third-party technology tools. Please review the Data Privacy section for more details.

Policy 3245 (Students and Telecommunications Devices) outlines the conditions under which students may use their own communications devices at school. Please review the Student-Owned Devices section for more details.

### Acceptable Use

Use of our computers is a privilege and should be for school purposes only. Appropriate use of the computer and the internet means I WILL:

1. Respect school property by not disrupting, destroying, modifying or abusing computer equipment or the network;
2. Not destroy other people's files with viruses or hacking tools;
3. Only access files that belong to me;

4. Use existing software and not install any other software without permission;
5. Use only teacher-approved media or devices;
6. Obey the restrictions of the network filter;
7. Report anything inappropriate to my teacher or another adult immediately;
8. Protect myself by not giving out personal information (including my password) or leaving my computer unattended;
9. Be a good cyber-citizen and not use the computer to bully, harass or put- down others;
10. Respect the copyright of software and web sites and not plagiarize the works of others.

I understand that not following any of the above could result in disciplinary action according to district policy 2022

### Web Filtering

The district may use one or more web filtering tools to restrict access to objectionable web resources and to maintain compliance with the Children’s Internet Protection Act (CIPA). Web filtering systems are never foolproof and do not take the place of supervising student use by teachers and parents. The web filter is based on district-wide settings to maintain uniformity for all students and consistency in access to resources and is not customizable to individual student or parent preferences.

### Digital Citizenship

South Kitsap schools use the Common Sense Media curriculum, which contains resources to extend digital literacy and citizenship to homes and families. You are encouraged to review the resources at <https://www.commonsensemedia.org/>.

Librarians and classroom teachers deliver age-appropriate lessons focused on media balance & well-being, privacy & security, digital footprints, and cyberbullying. These activities promote the positive use of technology, foster student ownership, and support good digital citizenship.

### Devices

#### District-Owned Devices

Through generous community support, SKSD is in the process of rolling out a one-to-one technology initiative to provide a Chromebook to each student to support and extend their classroom learning. Students are expected to be responsible users of district-owned equipment, just like textbooks, school uniforms and other school property.

- Device damage may incur a fine as specified on the Technology Fines page at [http://www.skschools.org/depts/technology/student\\_handbook/fines](http://www.skschools.org/depts/technology/student_handbook/fines)
- Students may be assigned loaner devices if their device is being repaired
- Students are responsible for returning equipment in a timely fashion as requested by school staff
- District-owned devices are not for personal use (ie. Downloading music or videos, installation of non-school programs, etc.)

- C. Students will not send, share, view or possess pictures, text messages, emails or other material depicting sexually explicit conduct, as defined in RCW 9.68A.011, in electronic or any other form on a cell phone or other electronic device, while the student is on school grounds, at school sponsored events or on school buses or vehicles provided by the district;

- D. When a school official has reasonable suspicion, based on objective and articulable facts, that a student is using a telecommunications device in a manner that violates the law or school rules, the official may confiscate the device, which will only be returned to the student's parent or legal guardian;
- E. By bringing a cell phone or other electronic devices to school or school-sponsored events, the student and their parent/guardian consent to the search of the device when school officials have a reasonable suspicion, based on objective and articulable facts, that such a search will reveal a violation of the law or school rules. The scope of the search will be limited to the violation of which the student is accused. Content or images that violate state or federal laws will be referred to law enforcement;
- F. Students are responsible for devices they bring to school. The district will not be responsible for loss, theft or destruction of devices brought onto school property or to school sponsored events;
- G. Students will comply with any additional rules developed by the school concerning the appropriate use of telecommunication or other electronic devices; and
- H. Students who violate this policy will be subject to disciplinary action, including suspension or expulsion.

### Data Privacy

In compliance with Policy 3235, the district seeks to enter into agreements with all third-party vendors to protect student personal information and usage statistics. Through a statewide partnership with the Student Data Privacy Consortium, we join with other districts in the state and country to provide these legally vetted agreements to software vendors to ensure student data is protected. A current list of agreements can be found on the SDPC site at [https://sdpc.a4l.org/district\\_search.php?districtID=4498&state=WA](https://sdpc.a4l.org/district_search.php?districtID=4498&state=WA)
