

INSTRUCTIONS FOR SUMMER WORK

Dear incoming honors student:

Because the understanding of fractions, at the least the basics, is critical to your academic success in 7th grade honors, you have three fraction handouts to complete over the summer – adding and subtracting fractions, multiplying and dividing fractions and fraction word problems. All of the handouts are due on the first day of school.

It is very important that you **clearly** show each step. **Do not** change the fractions to decimals to solve. If you would like to show your steps on a separate sheet of paper, please make sure to number each problem. **All handouts and additional paper should include your first and last name at the top.**

In spite of the extra work, I hope you enjoy your summer. I look forward to meeting you in the fall.

Sincerely,

A handwritten signature in cursive script that reads "Mrs. Taylor".

Mrs. Taylor
