

Logging in on a District Laptop and changing your password

Connect to Wi-Fi (This must be done first)

- Click on the world or Wi-Fi button in the lower right corner.

- Choose the Wi-Fi network you want, and then select **Connect**.

- Enter the password and click **OK**.
- You know you are connected when a white Wi-Fi symbol appears

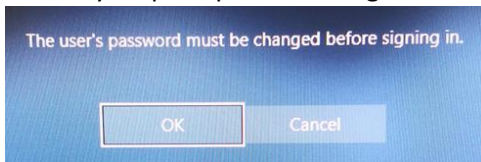

Logging In

- Enter your student's short username (initials and student number, ex. ab123456) in the username field.
- Enter your student's password in the password field, and then click the arrow.

- You may be prompted to change the student's password. **Click OK**

- Enter your new password twice and click the submit arrow. (new password must be 8 characters)
