KISD SHAC MINUTES MARCH 24, 2021

Members Present by Zoom-

Susan Atkinson, Stephanie Reeves, Adriana Torres, Katie Sotzing, Terri Ibarra, Anita Hurtado, Roslene Pruitt, Dr. Jennifer Trinh, Ken Young, Roberto Drouet, Brian Wood, Arcenia Urquiza, Gay Campbell, Angela Martinez, Jocelyn Pratt, Dana Morgan

A review of KISD Policies/Procedures/Protocols to maximize student and staff health & safety as related to Covid-19 was presented by Stephanie Reeves, RN. KISD has implemented Covid-19 vaccinations for employees, Covid-19 Testing program for staff and students, and Covid-19 protocols to keep students and staff healthy. This has involved many hours of Covid-19 contract tracing by multiple staff and KaufmanISD will continue to monitor for Covid and test for Covid throughout the district.

Please see attached KISD Mother-Friendly Workplace proposal with TDHS partnership. A pilot program area has been established at KHS with the assistance of Roslene Pruitt, RN and Susan Atkinson. This program is designed to support Mother and Baby @ KISD. We also recently received a Grant with TDHS for purchase of equipment-breastfeeding pump and stand with the help of Patricia Rivera- Texas Department of Health program representative.

KISD is proud to rollout Hazel Telehealth Services for KISD students and the success of our consent campaign that is well underway.. Roberto Drouet presented to the SHAC a Hazel Health presentation and the great success of the program thus far. Hazel Health helps with urgent care issues, immediate medical support for KISD Nurses to provide efficient care for student physical and mental needs, and helps support positive continuity of care for students and families. This is currently a free program to parents and provides many resources to families of KISD.

Employee Wellness was discussed by Stephanie Reeves, RN for this 2020-2021 school year. KISD has provided an employee flu shot clinic, Covid-19 Vaccination employee shot clinic in partnership with Kaufman County Emergency Management, and employee Mobile Mammogram Screenings. KISD continues to offer services thru our Fitness program and Fitness Center.

Walk Across Texas Physical fitness program and physical activities to address healthy habits for students and families at KISD was presented by speaker Katie Sotzing with the Texas A&M Agricultural Extension office. This year 447 Monday Elementary School students participated in the youth version and walked 4409 miles with the assistance of Melanie Negri, PE teacher.

PAGE 2 SHAC Minutes

Nutrition- Stephanie Reeves, RN addressed the KISD nutritional program modifications to provide healthy meals for students across the district. Thanks to the KISD cafeteria staff for modifying and continuing to always provide nutritional meals for our students, either at home or in the classroom. Covid presents challenges that KISD has met with a smile and a healthy meal for breakfast and lunch for our students.

Recognizing that oral health education is critical to the success of every child, Bright Smiles Bright Futures Dental Program was presented by Dr. Jennifer Trinh. KISD offered students at Elementary level a virtual dental health workshop this year with big smiles.

BSBF also provided elementary students with free oral dental health kits..

Meeting adjourned at 5:07pm

Next meeting is scheduled for April 28th via Zoom.
