STUDENT SPOTLIGHT

MADDY ROSE—KHS CLASS OF 2019

Our Student Spotlight focuses on KHS Graduate **Maddy Rose**.

Where do you go to school?

I completed my freshman year at the University of Nevada, Reno but when the pandemic hit and we had to move back home I transferred to Modesto junior college for my sophomore year.

What are you majoring in (what's your career goal)?

My goal throughout college has been to obtain a bachelors degree in nursing so I am currently completing my prerequisites in order to get into nursing school.

What did you like the most about the AVID program when you were in high school?

In high school the AVID program provided me with the idea that college is the best way to go and I am very grateful that I was able to grow up with that mentality since I joined the program in the sixth grade.

How have you used your AVID skills in college?

My AVID skills have contributed to my success in college because it is easier to juggle difficult classes and a lot of work when you know how to stay organized.

What piece of advice would you give to a student when choosing where to go to college?

The most important thing about choosing a college is picking the one that will provide you with everything that you could possibly need and more. Another important factor is to resist allowing your peers to influence your choice because it is very important to have your own life experiences.

What piece of advice would you give students for the skills they will most likely need in college?

One thing that I have realized about college is that even when you are in a large lecture hall you cannot be afraid to ask questions. Some courses can get very difficult but asking your instructor questions will allow you to avoid getting overwhelmed.
