Immunization Request Letter to Parents

Date: _____

Re: **Required Immunizations for School Attendance for:** _____

Dear Parent/Guardian,

New York State Public Health Law, Section 2164 requires that schools will not permit a child to attend school **unless** the parent provides the school with a certificate of immunization or proof from a physician, nurse practitioner or physician's assistant that the child is in the process of receiving the required immunizations.

Your child needs these immunizations for school entry:

Your child will not be permitted to attend school without the necessary immunizations.

A record of your child’s immunizations from your health care provider, health department, or official copy of the immunization record from the child's previous school (a copy of the original immunization record from the healthcare provider – not a copy of the school health record) is acceptable. A NYSIIS/NYCIR record is also acceptable. The **exact date** each immunization was given must be included in the record.

The chart detailing the required immunizations is below. You may also view the chart @ http://www.health.ny.gov/prevention/immunization/schools/updated_school_imm_requirements.htm

The required immunizations can be obtained from your family health care provider or your county health department at:

Bring the immunization record to the School Health Office. It will be copied and returned to you.

If you have questions or concerns about immunizations, please contact the school health staff.
