

Dear Incoming 9<sup>th</sup> Grade Parents and Students,

Despite the challenges of the last two years our Westlake FTC robotics teams continue to excel, with all three teams winning awards at the regional competition this weekend. Every team member has had the opportunity to learn something new: programming, manufacturing, CAD designing, 3D printing, laser cutting, game strategy, how to work within a team, and how to coordinate among teams, all in a gracious professional manner.

If you are interested in joining FTC robotics next year, summer activities, or would simply like to learn more, please register at the link below so you will continue to receive the most current information regarding procedures for summer activities and next year's team(s) tryouts.

Thank you and best wishes,  
WESTLAKE FTC
