

AP Macroeconomics Pre-Course Activity, Summer 2021

The AP Macroeconomics students are expected to complete the attached assignment before the first day of school. Understanding fundamental principles BEFORE class begins will give us the strong foundation from which we will build this course. As AP Macro is only a semester class this early work will enable us to begin our course content from the first day of school, giving us more time to delve deeply into our study of economics.

Please use this code to join the Google Classroom page for the summer assignment - **6one6ne**. If you do not have an @mylcs email (needed for Google Classroom at Liberty), please contact Mr. Porter at kirk.porter@mylcs.com. As an AP student, you should strive to do your own work, complete answers thoughtfully, and have the work completed on time. Complete the assignment by the first day that your class meets to avoid a late work penalty. Students enrolling after one week prior to the start of school can work out a due date with Mr. Porter.
