***Monitoring of Fire Alarm Systems, Inspection, Service & Repair***

***Addendum 2***

***(issued May 13, 2021)***

**Clarification of Scope of work:**

- Fire alarm signals will be monitored by telephone line, 4G/LTE, network communications and/or long-range radio signals or as designated by District-approved means of transmission.

**Response:**

The preferred method of Fire Alarm monitoring is by cellular radio signal.
