FUN ACTIVITIES

Here are a few fun, optional activities to complete. Read the directions carefully to make sure you complete all necessary steps. The most important part is to have fun!

1. Multiplication War

With a regular deck of cards, you and a partner flip 2 cards each at the same time. Multiply the values of your own cards and whomever has the highest value keeps all 4 cards. Continue to do this until one player has all the cards. That person WINS!

*****Add a challenge round for ties where you will each flip 3 cards to multiply at the same time.*****

(Face Card Values as follows: A = 1 J = 11 Q = 12 K = 13)

2. Math in the Kitchen

Find a cookie recipe you would like to share with some friends. Write the recipe down. Double (multiply by 2) the recipe and write the new amount of each of the ingredients you will need. With adult supervision, bake your cookies, take pictures of them and enjoy! Create a slide of the original recipe, the doubled recipe and a picture of the finished product!

3. Food To-Go

Find your favorite restaurant's menu. Write down an order for 4 people. You must order 2 appetizers, 4 entrees, 2 extra sides, 2 desserts and 4 beverages. You will find the price for each item and add to find the total before tax. Then you will multiply that number by 0.07 to find the tax amount.

Bonus: Find the value of a 20% tip.
