  - Drive in theater option
  - Still exploring other options

- Support for students struggling to be successful with online learning
  - Zoom Meeting Schedules, Virtual Homework Hall, and Paraprofessional Support
  - Technical Support for students getting help using Canvas, Teams, etc.
  - It can be challenging for teachers to see needs of students through the virtual platform- a parent could be providing extensive support for a student and thus it can appear that student is doing well. This is an opportunity for parents/students to advocate when students are really struggling.
- Support for students where the online system is inaccessible
  - Britnie will work on getting data for this.
