Introduction

The purpose of the Annual Survey is to assist the District in planning for the future, and to make the District more effective and equitable for staff and students. The administration hopes that you will be open and honest.

Examples of how the survey results are used:
- Inform curriculum adoptions
- School-level summaries are shared with principals and the School Board
- Support implementation of AVID practices and more

The Certified Staff Survey is for all Certified employees who work for the Beaverton School District, either part-time or full-time. It is not for volunteers or contractors. Survey reports from previous years can be viewed on the BSD Research and Reports Page.

This survey is voluntary. You may opt out of completing the survey at any time, without penalty. Survey data will be summarized so that answers will remain anonymous. Nothing in the survey content or District software will be used to identify you. Your email is not connected to the survey.

This year, when you select "Done," you will be redirected to the 2021 BSD Climate Survey for all staff. The Climate Survey has three sets of questions and includes optional demographic questions. The two surveys are completely separate and your responses to the surveys cannot be connected. We hope this separation will help you feel more comfortable responding honestly.

A question marked with an asterisk requires an answer and may shorten the survey for some.

It is OK to go back and change your answer to a previous question, but once you submit your survey you will not be able to edit your responses.

The survey closes May 26, 2021.

If you have questions, email Rayna Flye, Research and Evaluation Specialist.

Thank you!

District Comments--Optional

These comments are optional. This is a chance for you to share your views anonymously.

Administrators receive a copy of the comments, sent separately from the rest of the survey question responses so that you can not be identified by other responses you have given.

Please be aware that including details in your comments may make you identifiable to administrators. Please avoid giving personal, identifiable details in your comments.

Thematic and aggregated results (such as "55% of respondents mentioned the necessity of more salty snacks in the workroom in their comments") will be included in the 2021 Annual Survey Report.

If you have no comments, leave the boxes blank and select the Next button to continue.

4. Please share any suggestions you have about how to improve Beaverton School District communication.

5. What would you say is going well in the District, a specific department, and/or role?

6. What recommendations do you have to improve the District?

Location

* 7. For what school or District department do you work?

This information is used to create a summary for the site principal or department administrator and the Central Office. Administrators can view the culture and practices of their building or department, and read and apply suggestions.

If you do not wish indicate your district location, please select "I prefer not to say." If you choose this option, your responses will not be included in the school or department level report that your administrator receives.

Note: if you work in more than one location and would like to respond to questions for both locations, you will have the opportunity to do so at the end of this survey. Pick the first location now, and the second location at the end of the first survey.

Schools are listed first, followed by District departments.

Site Responses

Reminder: If you work in more than one location or department, please think of your primary location. You will have an opportunity to respond for a second location at the end of the survey.

Final Page

This is the last page of the survey. If you would like to edit any of your answers, please use the "Previous" button to return to the pages.

When you select "Done", you will be redirected to the 2021 BSD Climate Survey for all staff. There is no connection between your responses to the two surveys. No information is saved and your responses are completely anonymous.

The Climate Survey has three sets of questions and includes optional demographic questions.

The survey will help us learn if staff members of all backgrounds and identities receive respect and fair treatment in our District. The data is only used for analysis and reporting on groups of 20 or more to avoid identification. By creating a separate survey for demographics that does not ask you to identify your location or position, we hope that you will feel more anonymous and able to answer honestly.
