

CHERRIE BARRETT DEMING

Class of 1986

Cherrie Barrett Deming graduated from Mynderse Academy in 1986. Her love of athletics started in backyards, playing in fields and gymnasiums of the Seneca Falls Community Center. While at Mynderse Academy, she earned six Section V patches as a three sport athlete. She was a team captain on two of the three sports. In the fall, you would see her on the soccer field where she was a defensive varsity starter for three years. Within those three years, she participated on two Section V championship teams. In the winter, you would see her on the basketball court where she was a forward varsity starter

for three years. Within those three years, she participated on two Section V championship teams. In the spring, you would see her on the softball field where she was a starting pitcher for two years. During those years, she participated on two Section V championship teams.

Upon graduating from Mynderse Academy, Cherrie immediately began giving back to the community by volunteering at the Seneca Falls Community Center coaching basketball, soccer and softball teams as well as refereeing. Along the way, her love of sports was then spread to her daughter and son whom she continued to coach at the Waterloo Community Center.

Cherrie Deming wishes to thank her friends and family, as well as, the Seneca Falls Community for the awesome support she and her teams received while participating as an athlete at Mynderse Academy. Most of all, she would like to thank her teammates and coaches because without them she would not be the dedicated person she is today.

Cherrie resides in Waterloo with her daughter, Lauren and son, Ben. Today, you can find her at the University of Rochester watching her daughter, Lauren, play basketball or at Alfred State watching her son, Ben, play basketball. Cherrie has been employed at ITT Goulds Pumps in Seneca Falls for 29 years.
