

# How to Enroll in Kindergarten

## Visit [highlineschools.org/enroll](https://highlineschools.org/enroll)

### **Determine which enrollment criteria you meet:**

Select: Online Enrollment: *Families new to Highline* or Online Enrollment: *Current, Returning or Previously enrolled families*.

### **Set-up a ParentVUE account:**

Families new to Highline Public Schools will need to create a new ParentVUE account. Families with a student currently enrolled or previously enrolled will activate their account by contacting their neighborhood school for an activation key code and guidance. Use the ParentVUE button in the section selected in step one to start. Click on "Create new account" or "Activate account". You will need an email address to complete this step.

### **Start an online enrollment application:**

Once your ParentVUE account is set up, return to the ParentVUE button and log-in using your username and password to fill out an enrollment application. Select the year for which you are wishing to enroll. Kindergartners in the Fall will select 2021-2022 and then click "Begin Registration". You may save information in progress and return later to complete.

#### **Application Tips:**

- **Your electronic signature must match the name on your account**
- **When you have finished your application you must review it before you submit it**
- **For more information and FAQs, please visit [highlineschools.org/enroll](https://highlineschools.org/enroll)**
- **To find your neighborhood school, use the "Find Your School" tool on the enrollment webpage**
