Policy 6430

Intramural Programs

The Board believes that athletic programs should provide benefits to as large a number of students as possible. It is, therefore, the policy of the Board to provide an intramural program as an outgrowth of class instruction in physical education and commensurate with the grade level of the students involved. The program should encourage participation by all, regardless of degree of skill, and should be carried on with the best of interests of the participants as the first consideration. Responsible personnel shall be provided for coaching and supervising intramural sports.
