

## NON-INSTRUCTIONAL OPERATIONS

### Emergencies

In the event of an accident or other emergency, the bus driver shall follow the emergency procedures developed by the superintendent or designee. A copy of the emergency procedures will be located in each school bus. To insure the success of such emergency procedures, the supervisor of transportation will instruct each bus driver to conduct an emergency evacuation drill within the first six weeks of each school semester. The district shall conduct such other drills as may be necessary. Drills shall be held upon school premises. Drills on the highway are only warranted under conditions necessary for "life and emergency safety."
