NON-INSTRUCTIONAL OPERATIONS

Security Cameras on School District Grounds, Property or Buses

The Kennewick School District supports the use of security cameras that generate video footage, still pictures, and audio recordings throughout the district for the purpose of enhancing school safety and security. The Board intends to invest in security cameras to promote and foster a safe and secure teaching and learning environment for students and staff, to enhance public safety for community members who visit or use our school property, and to diminish the potential for personal and district loss or destruction of property.

The district shall use security cameras in support of these goals as authorized by the superintendent or designee. The superintendent or designee shall authorize district personnel or individuals to have access to security cameras, monitors, monitoring tools, or be permitted to conduct data sharing.
