

**SEIZURE RESCUE MEDICATION AUTHORIZATION FOR SCHOOL**

Student \_\_\_\_\_ School \_\_\_\_\_ Birthdate \_\_\_\_\_

The above named student has a seizure disorder or had a seizure in the past that could cause him/her to need emergency medication to stop a seizure at school. (i.e. Diastat, Midazolam)

Emergency Medication: \_\_\_\_\_ Dose: \_\_\_\_\_

Type of Seizures: \_\_\_\_\_

When to administer: \_\_\_\_\_ Route: \_\_\_\_\_

Health Care Provider Name \_\_\_\_\_ Telephone \_\_\_\_\_

Health Care Provider Signature \_\_\_\_\_ Date \_\_\_\_\_

**LWSD Guidelines for administration of a rescue seizure medication**

- **911 is always called if a seizure rescue medication is administered.**
- **Most emergency medications can only be administered by a trained health professional.**
- Many schools do not have a nurse in the building during all school hours to administer medication.
- The school this student attends **does not** have a school nurse on site during all school hours.
- If a nurse is on site, they will administer the medication while 911 is called.
- If the nurse is **not on site**, the school will call 911 and request a paramedic response. While not guaranteed, the average response time in LWSD is 5.4 minutes with some up to 15 minutes.
- If the average response time is longer than prescribed response time, listed above, please contact the school nurse.
- The student may be moved to another school in the district that has a nurse on site during all school hours to accommodate the health care provider’s prescribed recommendation.

**ACKNOWLEDGMENT OF PARENT OR GUARDIAN**

- I have read the above “LWSD Guidelines for administration of a rescue seizure medication”
- I understand that I need to provide a new order each school year.
- I understand it is my responsibility to replace expired medications.
- I understand that my student will not be allowed at school without a current order and medication.
