

2nd Grade Summer Math BINGO

Complete 5 activities in a row, column, or diagonal for a Bingo. For an extra challenge: complete all tasks and earn a "black out"!

<p>Create a schedule of a typical Saturday. Write the time you begin new activities. Remember to include A.M. and P.M.</p>	<p>Calling all pizza lovers: If you order pizza for dinner, ask your parents to cut it into 10 equal pieces. Record the total amount of pizza that was eaten, and how much was left over, in fractions.</p>	<p>Ask 3 members of your family to create an addition and subtraction challenge problem. Solve each family member's problem and record your answers.</p>	<p>Add: The year that you were born plus the year that one of your parents was born.</p> <p>For example: 2012 + 1985= 3997</p>	<p>Create a fun survey and ask all the members of your family your survey question. Record your data using a tally chart and create a bar graph to represent your data.</p>
<p>Memorize all multiplication facts for x0, x1, x2 and x10</p>	<p>Measure the length and width of at least two pieces of furniture in your home.</p>	<p>CHALLENGE: Memorize all multiplication facts for x11 and x12.</p>	<p>Create your own math word problem. Ask a member of your family or a friend to solve it.</p>	<p>Find objects with different shapes in your home. Record at least 5 objects that are each a different shape.</p>
<p>Collect all the coins in your home. Add up the total amount.</p>	<p>Play a 2nd AND 3rd grade math game on ABCYa!</p>	<h1>FREE</h1>	<p>Find three different sized containers or bottles in your home and fill them up with water. Which container has the highest capacity?</p>	<p>Use the "Math" category on Epic to read a math book.</p>
<p>Go for a walk or a hike with your family. Use a pedometer to track how many steps you took on your walk.</p>	<p>Have a family member or friend choose a 3 digit number, then <i>*mentally*</i> add 99. What is the sum?</p>	<p>Memorize all multiplication facts for x3, x4, x5</p>	<p>Pretend you have \$20 to spend. Look up the cost of an item that you would want. Do you have enough money? If not, how much more do you need?</p>	<p>Practice IXL Math for 3 days straight.</p> <p style="text-align: center;">Dates: ____, _____ _____</p>
<p>Find something in your home that you have a lot of. Sort them into groups of 10. How many groups are there? Is there a remainder?</p>	<p>Look up a yummy new recipe to cook with your family. Which ingredient has the largest measurement? Which has the smallest?</p>	<p>Watch a math video on Brain Pop or Brain Pop JR. Take the easy or hard quiz afterwards!</p>	<p>Have a family member or friend choose a 3 digit number, then <i>*mentally*</i> subtract 98. What is the difference?</p>	<p>CHALLENGE: Memorize all multiplication facts for x6, x7, x8 and x9.</p>
