

# DWIGHT SCHOOL SEOUL SUMMER ACADEMY

---

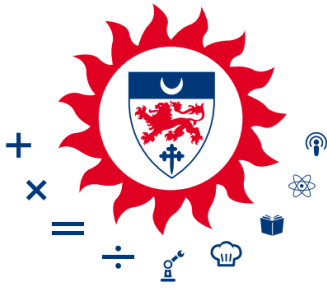

*Summer is for Trying.*

We are very excited to invite you to register for the Dwight School Seoul Summer Academy 2021, for ECD students. This session will run from June 28th to July 9th. Our team of experienced Early Years educators has worked hard to prepare a fun program that is rich in child-centered activities embedded in play and inquiry. This year's program will include the following;

**Little Scientists:** In this program, our Little Scientists will explore their learning to solve problems and complete a range of science experiments, while learning how to answer the question "Why?". The learners will also explore the science of cooking, using their math skills to experiment with food.

**Lego:** What better way to learn about architecture, science, and teamwork than through the amazing world of Lego. This session encourages curiosity, imagination, and self-expression all while learning to work together. Lego helps children to hone their fine motor skills, counting, and problem-solving skills through constructing and playing with friends. WHAT FUN!

**Korean C.A.M.P (cooking, art, music, performance):** Playful, colourful, tasty, and totally hands-on, the C.A.M.P program is designed for our ECD students to develop their Korean skills through creative thought, imagination, self-expression, and art. Children will learn valuable 'real world' Korean skills, through fun and cooperative activities. This exciting and creative program will inspire learners to experiment with and expand their Korean language. Exploring the world through their five senses creates the perfect opportunity for students to learn everyday Korean through our C.A.M.P !
