

# DWIGHT SCHOOL SEOUL SUMMER ACADEMY

---

*Summer is for Trying.*

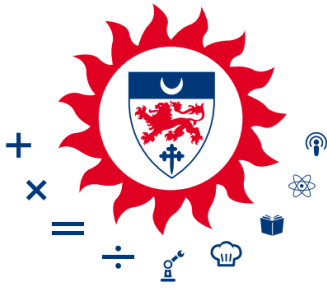

We are very excited to invite you to register for the Dwight School Seoul Summer Academy 2021, for students in Grades 4, and 5. This session will run from June 28th to July 9th. Our team of experienced educators has worked hard to prepare a program that is student-driven, inquiry-based, and most importantly loads of fun! This year's program will include the following;

**GAME ON!** A fun and exciting opportunity for students to create their own board games! Creating board games involves students in researching, reading, creative thinking, logical thinking, and experimenting. Playing games is not only fun, it's a great educational tool that offers opportunities for student learning. Board games are an easy way to encourage healthy brain development. Students will use strategy, creativity, and their imaginations while designing their own games! Let's get together with friends to design, create, play, and have fun!

**PYP STEMist!** Admit it, you've probably launched a rubber band at least once—pulled one end back, and let it go flying. Did you ever suspect that rubber bands could also be a fun way to learn about physics and engineering? Have you ever wanted to send your friend a secret message that no one else can read? In this program, STEM (Science, Technology, Engineering, and Math) will open the door for young STEMist to a variety of hands-on STEM activities that apply to the world around us. Our PYP STEMist will explore their learning to develop important life skills such as creativity, critical thinking, problem-solving, and teamwork. The young learners will also explore the science of cooking, using their science and math skills to experiment with food. A great way to be a creator, thinker, innovator, and inventor!

**Math is FUN!** EVERYTHING AROUND YOU IS MATHEMATICS! Keeping math skills boosted in the summer doesn't have to be boring! This course helps kids to develop a unique interest and a variety of mathematical skills in a fun, friendly, and engaging atmosphere. The following activities are some of the highlights of what is sure to be an amazing experience that you won't get anywhere else.

- 3D modeling basics (Geometric nets for 3D shapes)
- Exothermic vs Endothermic (Tables and graphs)
- Stocks (Profits and Percentages)
- How to become a banker? (Interests)
- Jumanji (Maps)

**Band and Music:** Get ready by starting our Band program early this summer! 4th graders, bring your shiny new instrument to school to learn the basic steps of our Dwight Band program. We will start from the very basics like breathing, embouchure positioning, fingering, and note reading. 5th graders will be mentors to shadow teach our new-bees. Teaching is the best way to hone your existing skills and we will have loads of time to play together as an ensemble too. This summer is the perfect time to co-teach, learn and practice your instrument playing.
