

DWIGHT SCHOOL SEOUL SUMMER ACADEMY

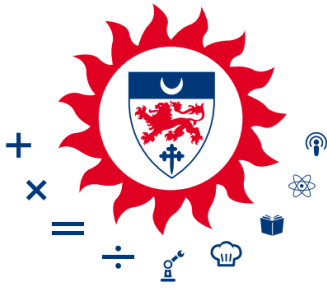

Summer is for Trying.

We are very excited to invite you to register for the Dwight School Seoul Summer Academy 2021, for students in Grade 1, 2, and 3. This session will run from June 14th to June 25. Our team of experienced educators has worked hard to prepare a program that is student-driven, inquiry-based, and most importantly, loads of fun! This year's program will include the following;

Camp Dwight: It's finally summer and that can only mean one thing... CAMPING SEASON! Whether you are a novice or veteran camper, come experience the true nature of camping with a REAL Canadian! Get your flannels ready as we sing camping songs while roasting s'mores in your very own self-made solar oven. Grab those binoculars you just made from recycled materials as well as your Explorer ID Badges and join a scavenger hunt to discover and identify various wild animal tracks. You will not be at a loss for things to do this summer after learning to play the ultimate camping games at "Camp Dwight." Painting with nature, designing camping-themed crafts, making bird feeders, and munching on timeless camping snacks are just a few of the essential camping experiences you will never forget! In celebration of our new-formed friendships, we will end our time together by making the epitome of camp memorabilia, friendship bracelets.

Korean C.A.M.P (cooking, art, music, performance): Playful, colourful, tasty, and totally hands-on, the C.A.M.P program is designed for students in Grade 1, 2, and 3, to develop their Korean skills through creative thought, imagination, self-expression, and art. Children will learn valuable 'real world' Korean skills, through fun and cooperative activities. This exciting and creative program will inspire learners to experiment with and expand their Korean language. Exploring the world through their five senses creates the perfect opportunity for students to learn everyday Korean through our C.A.M.P!

Stop Motion Fun: This exciting program allows our students to explore the magic of animation. We will be using simple stop-motion animation software for students to plan, create, and present their own stories and ideas. This program allows students to collaborate with each other while expressing themselves creatively, to literally make their stories come alive. We can't wait to get started!
