

# DWIGHT SCHOOL SEOUL SUMMER ACADEMY

---

*Summer is for Trying.*

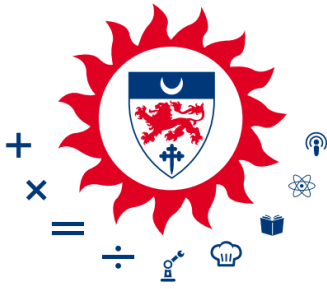

We are very excited to invite you to register for the Dwight School Seoul Summer Academy 2021, for students in Grade 6, 7, and 8! This session will run from June 14th to June 25th. Our team of experienced educators has worked hard to prepare a program that is student-centered, engaging, and most importantly FUN! This year's program will include the following;

**MYP STEMist!:** Have you ever wanted to design your own roller coaster? Have you ever wished your drawings would come alive and the stick figures or objects on your paper could move around? What sounds impossible actually is not! In this program, STEM (Science, Technology, Engineering, and Math) will open the door for young STEMist to a variety of hands-on STEM activities that apply to the world around us. Our MYP STEMist will explore their learning to develop important life skills such as creativity, critical thinking, problem-solving, and teamwork. The young learners will also explore the science of cooking, using their science and math skills to experiment with food. A great way to be a creator, thinker, innovator, and inventor!

**Swimming:** Dive into summer with our very popular swimming program. Students will expand their knowledge and skills through further development of the four competitive swim strokes while developing teamwork and cooperation.

**Knead a loaf? (Bread-making):** Do you love the smell of freshly baked bread, a crunchy crust, a soft and chewy crumb full of delicious flavour? You'll never want to buy bread again once you learn the secrets of how to make your own. Impress your family and friends with your baking skills. In this course, you'll begin the first week by learning the basics of creating a basic yeast dough which can then be used to bake your own artisan-style bread, pizza bases, and focaccia. In the second week, we'll learn how to develop a starter or 'mother', for making healthy and tasty sour-dough loaves. Try experimenting with different flavours and flours using organic, rye, and wholemeal flour, maybe add some different grains for taste, texture, and health. We'll learn how to form perfect rolls, braided loaves, and other shapes too. Students will take home their tasty treats to tempt and tantalise their taste buds.

**Rock Band:** Get ready to Rock and Roll! In this program, you will pick and learn a song to practice and perform with your fellow band members. You will be able to choose the instrument you would like to play in the band, regardless of your proficiency in it. Everybody is welcome to **Rock!**
