III. DISTRICT INTRODUCTION

The Wiseburn Unified School District (K-12) serves students from Hollyglen and the surrounding unincorporated areas of Los Angeles County (Del Aire and Wiseburn). About 50% of the District is located in the City of El Segundo, which contains numerous major employers, including aerospace and high-tech industries as well as communications and entertainment. The area's ideal climate and close proximity to cultural and sporting events along with various shopping venues make it highly desirable.

Wiseburn is immediately south of Los Angeles International Airport and one and one-half miles east of the Pacific Ocean. It is bordered by the Century Freeway on the north and divided by the San Diego Freeway running north/south. In addition to the air and auto transportation infrastructure, the Green Line Metrorail traverses the District bringing workers to the employment centers. Roughly, the District boundaries are Sepulveda Boulevard on the west, Marine Avenue on the south, Imperial Highway on the north, and Inglewood Avenue on the east.

With four district schools and five independent charter schools, Wiseburn and Da Vinci combine for a total of almost 4,500 students. During the past decade the District enrollment, which at its peak reached 2,900 pupils in the 1960's before dropping to 1,100 in the 1980's, has been growing again. Resident student enrollments have increased and been supplemented by pupils granted inter-district attendance permits and by the launching of the charter schools. Currently, the ethnic composition of the student body is: Multiracial 6%, Asian 6%, Caucasian 17%, African-American 15%, and Latino 56%, reflective of current California demographics. Diversity, with balance, is one of Wiseburn's greatest strengths in preparing graduates for life in 21st Century California. Being both small and suburban, Wiseburn offers a unique combination of a "family atmosphere" in an opportunity-rich setting.

VI. CONTENTS OF STATEMENTS OF QUALIFICATIONS

A. General

Submitted SOQs must be clear, concise, complete, well organized and demonstrate both respondent's qualifications and its ability to follow instructions. The quality of answers, not length of responses or visual exhibits is what is important in the SOQ.

Respondents shall submit one (1) unbound original plus three (3) copies of the SOQ in 11-point font and, except for the unbound original, all copies shall be spiral bound into books of approximately 8 ½" x 11" format, not to exceed twenty-five (25) pages. Additionally, an external thumb drive or electronic version of the SOQ shall also be made available to the District at the time the SOQ is submitted.

The District is requesting firms focus on simplicity, brevity, and application of past experiences related to the demolition and removal of older public works facilities and related site materials leaving the site free and clear and ready to build for future projects. The District is more interested in understanding the experience, process, and procedures to ensure a well-managed, safe environment, and cost-efficient project completion.

All respondents shall follow the order and format specified below. Each section of the SOQ shall be tabbed to correspond to the numbers/headers shown on the following pages:

B. Submittal Letter

The cover letter shall be brief (one page maximum). Include the SOQ's title and submittal due date, the name, address, fax number and telephone number of the responding firm (or firms if there is a joint venture or association). If the firm is proposing to co-respond with another principal firm, the cover letter must specify the type of services to be provided by each firm and the proposed percentage allocated to that phase or function for the co-respondent. The submittal letter will NOT be considered part of the twenty-five (25) page limit.

C. Table of Contents

Indicate the role and responsibility of each individual. The lead/core project team must be local (Southern California) and demonstrate prior California K-12 project experience.
