School Board Deliberation	Nov-Dec 2021	In Person?	Advisory Team Available for Consultation/Information Share with Board/Community	Advisory Team

1) Assessment discussions (Meetings 9-13) will include categorization in to "scope buckets" for each facility, hopefully giving priority magnitudes for each site in the District.

2) I could imagine that at this point we would pause our regular meetings, until which point the School Board/District seeks further input on Facility Improvement recommendations....

....this possibly would come about from either a successful (or unsuccessful) vote in February, April, August or November 2022, at which time additional input or information may be needed.
