

## AP Chemistry Summer Assignment 2021

Welcome to AP Chemistry! I am excited to be embarking on this adventure with you this year. There will not be a required summer assignment this year to allow all more time to rest and rejuvenate coming off the 2020-2021 school year, but I do have a book to share that may help pique your interest in diving further into the world of chemistry.

Here's the book that I'm reading in preparation for next year. Consider joining me and read along:

- [Caesar's Last Breath: And Other True Tales of History, Science, and the Sextillions of Molecules in the Air Around Us](#)

If you wish to get a head start on reviewing chemistry or learning fun facts or developing skills useful in AP Chem, here are some suggested activities that can give you a leg up in August:

- ❑ [Practice with Significant Figures](#)
- ❑ [The Metric System and Conversions](#)
- ❑ [Naming Games](#) (note links at top)
- ❑ [Balancing Equations](#)
- ❑ [Element Crossword Puzzles](#)
- ❑ [Element Matching Game](#)
- ❑ [Element Math Game](#)
- ❑ [Speed Math Deluxe](#)
- ❑ [The Mole and Stoichiometry](#)

Looking forward to a great year of AP Chemistry. See you back at school in August!

Mrs. Adelson
