

STUDENTSHigh School Activity Uniforms/Equipment

The Kennewick School District believes that those high school student activities requiring periodic purchase of uniforms and large equipment items should be planned ahead so that funds are available when the replacements are needed. To achieve this end, the superintendent shall establish a depreciation schedule for band uniforms, choir robes and similar items. A fund shall be established through annual charges to the student activity accounts to assure that this equipment is available.

In order to begin this program the district will pre-pay the initial purchase of equipment and allow the student activity fund to reimburse the district over a period of years.

Adopted: September 8, 1993
