## Specialty Medications

Specialty medications are high-cost drugs that are often injected or infused and require special storage and monitoring. These medications must be ordered through Caremark, Caremark RxClaim's specialty pharmacy by calling Caremark at 1.800.237.2767. Some exceptions apply. These medications are limited to a 1-30 day supply. Specialty medications largely fall into the formulary brand category but could also fall into the biosimilar or generic specialty drug category. These medications are subject to the appropriate co-insurance as listed below. Caremark Specialty Pharmacy also offers pharmaceutical care management services designed to provide you with assistance throughout your treatment.

Specialty Medication Copays	Caremark

## Generic Policy - Dispense As Written (DAW)

If you choose to buy the Brand name drug when a Generic equivalent is available, you will be required to pay the Brand copay plus the difference in cost between the Generic and Brand name drug.

## Maintenance Drug

**A medication that is used for chronic health conditions on an ongoing or long-term basis (e.g., antihypertensive medication taken daily to control high blood pressure).**

## Preventive Medications

Your employer's plan is subject to the Affordable Care Act (ACA) which requires the coverage of a number of preventive items and services at 100% and ensures these items and services are not subject to deductibles, maximum out of pockets, or other limitations such as annual caps or limits. You may contact RxBenefits Member Services at 1.800.334.8134 if you have specific drug questions or register at [caremark.com](http://caremark.com) to check drug costs and coverage.

## Compound Drugs

For compound drugs to be covered, they must satisfy certain requirements. In addition to being medically necessary and not experimental or investigative, compound drugs must not contain any ingredient on a list of excluded ingredients. Any denial of coverage of a compound drug may be appealed in the same manner as any other drug claim denial under this coverage. Compounded medications equal to or exceeding \$300 per script will require prior authorization.

## Step Therapy Program

Certain medications may be subject to step therapy. You could be asked to try one of the first or second level options before certain drugs are covered by the plan.

## Formulary

A list of Federal Drug Administration (FDA) approved Prescription Drugs and supplies developed by a Pharmacy and Therapeutics Committee, and/or customized by Caremark RxClaim or RxBenefits. This list reflects the current clinical judgment of practicing health care practitioners based on a review of current data, medical journals, and research information. In your prescription drug coverage, the Formulary Drug list is used as a guide for determining your costs for each prescription. Drugs not listed on the Standard with ACSF Formulary may not be covered. Your formulary is Standard with ACSF.

**The following lists are not all-inclusive, but rather are lists of the most commonly used prescription drugs. These lists are subject to change. The Caremark RxClaim formulary provides an up-to-date list of medications that may be covered by the program. The Caremark RxClaim formulary may be found online at [caremark.com](http://caremark.com). You may also contact RxBenefits Member Services at 1.800.334.8134 to learn whether a specific drug is covered.**

In some cases, it may be medically necessary for you to exceed the preset limits. In those instances, Prior Authorization is required. In such cases your doctor may initiate Prior Authorization by calling RxBenefits toll-free at 1.800.334.8134. Several hundred drugs are subject to quantity limitations for patient safety based on FDA guidelines. Your plan has identified the following drug categories for Quantity Limits.

- Erectile Dysfunction
- Opioids

## Prior Authorization and Appeals

If a prescription drug claim is wholly or partially denied, you or your authorized representative has the right to appeal the decision. You or your authorized representative may appeal the denial no later than 180 days after receiving notice of an adverse claim decision. Appeals of prescription drug claims are handled by RxBenefits and are decided in accordance with the terms of the plan document. Following a clinical review, one of four actions will occur: the medication is approved, the medication claim is denied, the doctor may decide to withdraw and prescribe a different medication, or the reviewer can dismiss the claim due to lack of communication from the prescriber. If denied, the appeal process is available.

The following medications may require a prior authorization under your plan:

- ADD/ADHD
- Anti-Obesity/Anorexiant
- Growth Hormones
- HSDD
- Infertility
- Oral/Intranasal Fentanyl
- Topical Acne

## **The Appeal Process**

If denied, the member may appeal the decision. Upon appeal, a second pharmacist reviewer will evaluate the prior authorization and make a decision (approved/denied). If denied a second time, a final appeal may be made, which is forwarded to an outside medical reviewer. If denied, there are no further appeals.

Your doctor may initiate the Prior Authorization, quantity limit, high dollar claim review or any other rejection process by calling RxBenefits at 1.800.334.8134.
