

SBESA ANNOUNCES 2021 SCHOLARSHIP RECIPIENTS

The **Spring Branch Educational Support Association** has selected their 2021 class of SBISD Scholars. SBESA has proudly awarded scholarships to one graduating senior from each high school campus for over 40 years.

Our scholarships have been supported through generous donations from our SBISD community and participants at our annual Bosses Night Fundraiser. Due to Covid-19 restrictions, we are finding new ways to raise money for scholarships.

Each scholar was selected after displaying remarkable academic achievement, extra-curricular participation, and a plan to continue their education, reaching for the **Spring Branch T-2-4** goal for every child!

Christopher Wilkinson, Memorial High School – Christopher will be attending Texas A&M University. Christopher always worked well with his peers, ensuring that not only he, but the entire group participated and understood the material. If he ever struggled he was not afraid to ask. Christopher wants to succeed, and he wants to learn more every day. He is a hard worker and will do what he needs to achieve his goals.

Gloria Azucena Castillo, Northbrook High School – Gloria will be attending the University of Texas Rio Grande Valley. Gloria has a heart for giving back to the Spring Branch community, which has been demonstrated through various service projects during her time at NHS. She is a leader in and out of the classroom and one who will set an example for other peers at any institution. She is ready to excel, and possesses the self-motivation to successfully take on new challenges.

Thy Ho, Spring Woods High School – Thy will be attending Northeastern University. Thy's work ethic, academic achievements, participation in extracurricular activities, and lasting involvement in her school and community is a testament of her ability to prioritize and manage multiple demands without sacrificing the quality of her work or the integrity of her efforts.

Kara Ann Allender, Stratford High School – Kara will be attending the University of Houston – Downtown. Kara is a very well-round student that balances both her academic work load and the demands of her extracurricular activities. Kara is someone that strives for excellence in any and all things she does.

Clifton Sherrard, Westchester Academy for International Studies – Clifton will be attending Texas A & M at Galveston. Clifton is interested in mathematics and business since it can be incorporated in real-life aspects. This drives his career goal, which is to become an engineer. He is one of the most inquisitive and persistent students in his classes and will be successful in his studies as he works towards his degree.

Each student will receive \$800 to continue on their journey of life-long learning. We are happy and proud to recognize these fine students' efforts!
