

NAZARETH ACADEMY HIGH SCHOOL
CONCEPTUAL CHEMISTRY
SUMMER ASSIGNMENT

Dear Incoming Conceptual Chemistry Student:

Conceptual Chemistry class is designed to introduce you to the principles of Chemistry, while using concrete examples and experiments to enhance your understanding of fundamental concepts. In order to prepare for the course, you will complete an assignment from your textbook using an online link. This will help you review concepts and skills you have learned in prior science classes at Nazareth Academy High School.

Please read all of Chapter 1: The Science of Chemistry, textbook pages 2 - 30, accessed through this link:

https://d3jc3ahdjad7x7.cloudfront.net/ZNoJ1D09txjLBX5b2iMhhpzYN2Lc9o36UnuL7MbNYFi_gssQW.pdf

Complete Chapter Review Questions, #1 - 25, found on pages 31 - 32. Make sure you are looking at the numbers on the bottom of the textbook pages rather than the pages of the PDF file. Please number and type your answers.

Submit answers to me electronically or in the Physics Lab by Friday, September 10, 2021, even if you are rostered for Conceptual Chemistry in the spring semester. This assignment will count as your first grade of the semester. Ten points per day will be deducted for lateness.

I hope you enjoy a wonderful summer. I look forward to meeting with you next year!

Sincerely,

Mrs. Amy McDonald
