

May 26th, 2021

Dear Rising 6th Grade Parents,

The Shelby Farms campus at ECS requires summer math work to keep the kids engaged in skills that they have learned during their last completed grade. Summer work will be posted to the ECS website by June 1, 2021; however we highly recommend that students not begin the assignment before July. This should give them a much needed break from school related work. Summer work will take your student more than just one evening so please help them to pace themselves to ensure that the work is completed by the first day of school. This assignment will count as a quiz grade for quarter 1. We are also posting an OPTIONAL online assignment on DeltaMath.com - While this is not required work, the problems should challenge your child and help them better prepare for next year. To reach this assignment, please open the letter attached to the Middle School Summer Math Work page.

Please email at [sstevens@ecseagles.com](mailto:ssstevens@ecseagles.com) if you have any questions. We hope that you have a wonderful summer!

In Christ,
Shanan Stevens, Ph.D.
Math Department Chair

"Great is our Lord and abundant in strength; His understanding is infinite." Psalm 147:5
