REVENUES

Unrestricted LCFF Sources (Local Control Funding Formula):

The total LCFF revenues are projected at \$98,510,541.

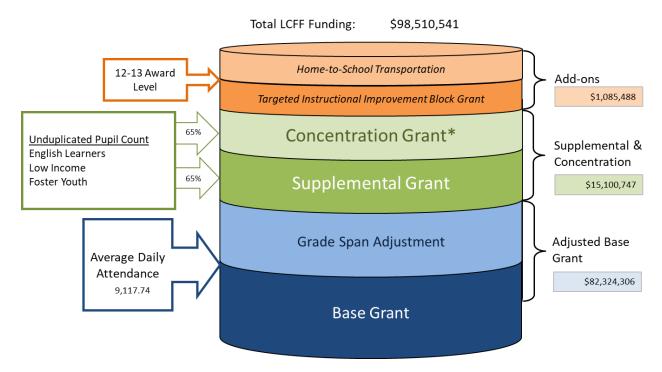

Under the new funding system, most state categorical programs are eliminated. Instead, the LCFF receives base, supplemental, and concentration grants.

- Provides a uniform base grant, based on the grade span of the pupils, per unit of average daily attendance.
- Provides a supplemental grant equal to 20 percent of the adjusted base grant multiplied by the average daily attendance and the unduplicated pupil percentage (English learners, foster youth, eligible to receive free or reduced lunch). Lompoc Unified's unduplicated pupil percentage is estimated to be 65.49% for year 2021/22.

 Provides a concentration grant equal to 50 percent of the adjusted base grant multiplied by average daily attendance and the percentage of unduplicated pupils exceeding 55 percent of a district's enrollment.

 LCFF growth estimates will be limited to cost-of-living percentage adjustments.

Components of Unrestricted LCFF Entitlement

*Unduplicated Pupil Percentage must be above 55% to receive Concentration Grant funding

MULTI-YEAR PROJECTIONS AND ASSUMPTIONS

Under the Education Code (Section 42131) all California School Districts must be able to show that they have a sound financial plan in place that will assure fiscal solvency in the current year plus the next two years. This is accomplished by preparing a Multi-Year Projection report that shows projected revenues and expenditures for the current and each of the next two years. The Lompoc Unified School District Multi-Year Projection reflects that the district will be able to meet its financial obligations.

The following chart reflects the budget assumptions:

Factors Impacting 21/22 Budget

Hold harmless protects LUSD from revenue loss due to declining ADA in 21/22

The LCFF COLA for 21-22 includes an additional COLA of 2.31% which was deferred in 20-21. It also includes an additional 1% proposed by the Governor.

If deposits into the Public School System Stabilization Account happen as planned, in the Governor's January Budget, a 10% cap on school district reserves could be triggered in 22-23.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occu

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

4. CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)¹ and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA¹ and its economic recovery target payment, plus or minus one percent.

¹ Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.
