

## Magnus Health Mobile Account Setup

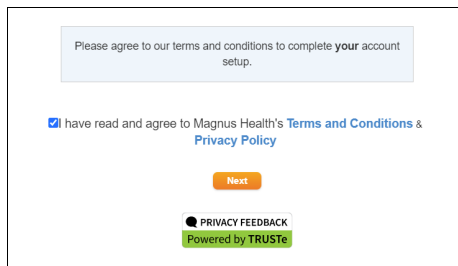

*The Magnus mobile app was used during the 2020-2021 school year to complete Cannon's daily COVID-19 health screening. However, the Magnus app is part of a larger web-based system, which allows parents to have continuous access to their student's health record. Magnus allows you, the parent or guardian, to securely and accurately add and update your student's health information. Please follow these instructions to set up your Magnus account for the first time.*

1. Use your computer to go to <https://secure.magnushealthportal.com/ss/720757/login>
2. Use your MyCannon username and password (the username and password you use to look at your Cannon School account information, grades, etc.) to login to the Magnus Health portal.

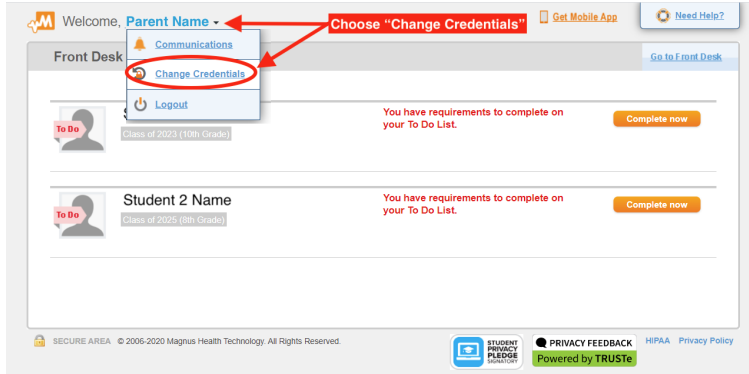

The screenshot shows the login interface for Cannon School's Magnus Health portal. At the top, it says "Magnus Health Cannon School". Below that, a light blue box contains the instruction: "Please log in with the username and password from your school's web portal, 'My Backpack' or 'Radius.'" There are two input fields: "Username:" and "Password:". Below the password field is an orange "Login" button. A "Privacy Policy" link is located at the bottom right of the form area. At the bottom of the page, there are three logos: "SecureTrust Trusted Commerce click to validate", "PRIVACY FEEDBACK Powered by TRUSTe", and "STUDENT PRIVACY PLEDGE".

3. Agree to the Magnus Health terms, conditions and privacy policy then click next.

The screenshot shows the terms and conditions agreement page. At the top, a light blue box says: "Please agree to our terms and conditions to complete your account setup." Below this, there is a checkbox that is checked, with the text: "I have read and agree to Magnus Health's [Terms and Conditions](#) & [Privacy Policy](#)". Below the checkbox is an orange "Next" button. At the bottom, there are two logos: "PRIVACY FEEDBACK Powered by TRUSTe" and "STUDENT PRIVACY PLEDGE".

4. Move the cursor over your name in the window and select "Change Credentials" from the drop down menu.

5. Use the “Change Credentials” screen (pictured below) to create a new username and password. Please note that this process creates a **NEW** username and password for you to use in the Magnus Mobile app. It will NOT change your MyCannon username and password. Make a note of the username and password you create here because you will need this information to sign into the Magnus Mobile app. Click “Change Credentials” to save the username and password entered.

A screenshot of a web form titled 'Update Your Username and Password'. It has three input fields: 'New Username', 'New Password', and 'Confirm Password'. To the right of the 'New Password' field, there are instructions: 'New password cannot be the same as your previous two passwords' and 'Password must meet this criteria'. The criteria listed are: 'At least {0} characters', 'At least 1 special character or symbol', 'At least 1 number', 'At least 1 uppercase letter', and 'At least 1 lowercase letter'. At the bottom of the form, there are two buttons: 'Change Credentials' (orange) and 'Cancel' (blue).

6. Logout of the Magnus web portal and close the browser windows. The remaining steps need to be completed using your mobile phone.
7. Install the Magnus Mobile app on your phone.
