

# SUMMER MATH RESOURCES

## **Review Math Facts for 5 to 7 Minutes a Day:**

addition, subtraction, multiplication, and division

Use a variety of methods: flashcards, oral drills in the car, worksheets, computer games, iPad, etc.

## ***Two Excellent Resources to Keep Math Skills Fresh!***

### **[Summerskills.com](http://Summerskills.com) - \$18**

Quick 20 minutes lessons

Answer key with problems worked out

Glossary of terms and explanations of how to work out problems

Don't worry about Grade Level - choose a lesson that is review or higher difficulty if you are working with your student!

### **[Summersolutions.net](http://Summersolutions.net) - \$16.99 including shipping**

Original Mathematics Version

30 Lessons (about 20 minutes each)

Answer key with problems worked out

Glossary of terms and explanations of how to work out problems

Don't worry about Grade Level - choose a lesson that is review or higher difficulty if you are working with your student!

(for example: Level 8 is Algebra I – not 8th grade)
