

Interior Design 1

Course Description

This course explores the field of interior design through engaging learning activities. Identification and use of the elements and principles of design are emphasized. Other topics are furniture arrangement, floor plan evaluation, space planning and design related careers. Skills learned can be applied to current living environments and future career options.

Priority Standards / CTE Strands

- Demonstrate professional design presentation techniques
- Identify the two basic types of design.
- Identify and explain the basic elements of design or “tools” used to create a design: line, shape, form, space, texture, pattern, light and color.
- Identify the terms associated with the color wheel and the major color schemes.
- Identify and explain the basic principles of design or “rules”/guidelines of design: scale, proportion, balance, rhythm, emphasis/focal point and harmony.
- Explain the design and function of interior space.

Performance Skills

- Complete FCCLA Step One
- Demonstrate proficiency in professional lettering and mounting techniques.
- Present visual examples of the elements of design and explain each concept in writing.
- Create a color wheel identifying primary, secondary and tertiary.
- Create tints, tones and shades.
- Create or present visual examples of major color schemes.
- Present visual examples of the principles of design and explain each concept in writing.
- Label a floor plan with the three living zones and indicate the functions of each zone.
- Identify and label common floor plan symbols.
- Using a floor plan, create a furniture arrangement incorporating principles and elements of design and space planning.
- Integrate CTSO FCCLA into the course.
- Develop professional and interpersonal skills needed for success in the industry.
