Bountiful High students celebrate after completing the changing of the tassels.

## District celebrates thousands of graduates

Students from the district's nine traditional high schools and one alternative high school recently said their final goodbyes.

A total of 4,833 graduates participated in ceremonies over four days. The graduates earned nearly \$63 million in scholarships. Several graduated with an associate degree and others graduated with skills certifications.

Students are heading off to new adventures with some joining the military, others pursuing careers and many attending universities.

Students plan to attend a variety of higher education institutions including each of the Utah universities. Out-of-state institutions of choice range from Embry Riddle Aeronautical University to Rochester Institute of Technology and Royal Academy of Music.
