THE POLICY

The Salt Lake City School District Board of Education provides all eligible students with disabilities a free appropriate public education that emphasizes special education and related services designed to meet their unique needs. Eligible students with disabilities will be provided these services starting at age three and continuing until the student turns 22; students who turn 22 during a school year will be allowed to finish the school year. The district aims to provide quality educational opportunities to all students with disabilities that will prepare them for further education, employment, and independent living. A continuum of programs and services are available to students with disabilities who are found eligible to receive special education services. The district works to ensure that all eligible students receive appropriate services through a process of identification and referral; evaluation; determination of eligibility; development of an individualized education program or 504 plan as appropriate; determination of services; and reevaluation. Throughout this process the board shall ensure that the rights of students with disabilities and their parents are protected.

The purpose of this policy is to ensure that students with disabilities or suspected disabilities will be identified, evaluated, and provided appropriate educational services and/or accommodations in accordance with all applicable state and federal laws and regulations.

The district has set forth its specific procedures for implementing this board policy in the [Special Education Handbook](#).
