

Welcome to Accelerated Algebra 2/ Precalculus!

I am looking forward to starting our journey into the Accelerated Algebra 2 and Precalculus course. The purpose of this summer assignment is to review and maintain skills developed in Algebra 1. Everything you see in the summer assignment is material you should have learned in Algebra 1. You may review the topics using resources such as your notes from Algebra 1, on-line web-based resources such as Khan Academy videos on specific topics or Flipped Math videos.
