Theme Details

Here is a complete summary of your themes from StrengthsExplorer®

StrengthsExplorer will help you think about your talents - the ways in which you naturally think, feel, or behave. Thinking about your talents may be new for you. The StrengthsExplorer report will help you begin to discover and talk about your greatest talents by identifying the areas, or "themes", in which they are found. Even though everyone has talents in all 10 of these themes, StrengthsExplorer tells you your top three themes. The descriptions of your top themes probably express the way you are much, or even most, of the time. Friends, parents and teachers might use similar words to describe you. Learning about your talents can help you grow and build strengths, as well as help you achieve what you want to do in your life.

You are the only person with your exact combination of talents - even if someone has the same top themes as you. As you read through our top themes, please remember that while some of the talents described may not fit you, many of the talents described should sound very familiar - and that is what's important. To learn about your own talents, pay the most attention to the sentences that sound the most like you.
