Mandated Paperwork for Athletic Participation

Please Review Carefully

According to the New Jersey State Department of Education, in order for a student to participate in sport **a medical examination by a licensed health care provider (physician, APN or PA) must be done within 365 days of the first day of practice.**

On-line registration is mandatory for all athletes. All forms must be submitted electronically (see exclusions below).

Preparticipation Physical Evaluation History Form, Supplemental History Form for the athlete with Special Needs, Physical Examination Form, Clearance Form and all Treatment Plans (Asthma or Allergy) must be submitted **as a hard copy** to the school nurse.

Pre-Participation Forms (Please print):

History Form (hard copy) - must be filled out and signed by a parent and athlete, *prior* to the physical exam.

Athlete Supplemental History Form (hard copy) - must be filled out *prior* to the exam and signed by parent and athlete (check the “no” column if the health issues don’t apply).

Physical Examination and Clearance Forms (hard copy) - will be completed by the examining health care provider after he/she has reviewed History Form and has completed the physical exam.

Please be aware that these required forms must be received, reviewed and processed by the school nurse and signed by the school doctor before the athlete can try out or practice. If any of the forms are incomplete, or turned in after the deadline, the student’s clearance for sport participation **will be delayed**. The safety of our athletes is our most important consideration. No athlete will be allowed to participate in Pequannock Twp. District sports if the school procedures and the State guidelines are not followed.
