MR. ERIC D. RITZERT
SUPERINTENDENT

MS. DEANA R. TURNER
DIRECTOR OF BUSINESS AFFAIRS

October 4, 2018

Dear Parents and Guardians:

We have continued to test the water throughout all of our schools to ensure it is safe to use. We have received the results from our most recent round of testing. The results showed elevated levels of lead and copper in several water fixtures. The results have been posted to our website.

The fixtures where elevated levels of lead or copper were found have been shut off. We continue to supply bottled water to all students and staff at all three school buildings.

We plan to replace the fixtures that have been identified and will have additional water quality testing done for all three buildings. We will share the results when we have them.

Thank you for your continued patience and understanding.

Sincerely,

Eric D. Ritzert
Superintendent
Karns City Area School District
