Newark Teacher Induction Program

Candidate Feedback
* To be delivered as a Google Form in November and March

Purpose: The Candidate Log is completed by the candidate twice each year to document the types of interaction and the quality of mentor support provided.   This may be a valuable tool to record insights, questions, areas for further investigation, etc. It also serves as a confidential communication tool between the candidate and program director. Per *Precondition 3 for Teacher Induction Programs*, this log also verifies that each candidate receives an average of not less than one hour per week of individualized support/ mentoring coordinated or provided by the mentor.

Directions: Reflect on the interactions with your mentor/s. For each type of mentoring provided, indicate with an "X" the effectiveness of the support. To ensure timely attention, if you indicate "*I have concerns,*" please provide more information in the "Notes" section.

Mentoring Activities	Excellent	Adequate	I have concerns	Not Addressed
Just-in-time Support				
Describe JIT Support:				
Guidance to promote enduring professional skills				
Modeling "learn to teach by watching"				
Supports and guides reflection on practice
