Newark Teacher Induction Program

To the Mentor: This tool may be used as the "Initial Observation" data. The main purpose of this observation is to see the Candidate " teaching in action". Record data regarding the Candidate may have identified as areas of interest, interaction with the students, classroom management, instructional strategies.

Keep the observation time to 20-25 minutes.
Complete the "CSTP" column during the post-observation conversation.

Time In 5 minute intervals	Teacher Data What does the teacher say or do?	Student Data What does the student say or do?	CSTP To be completed after the observation.

NOTES: Record strengths and areas of growth to discuss during the post-observation conversation.
