Getting Started with Lexia® Core5® Reading: Accelerate Literacy Growth

Lexia Core5 Reading provides explicit, systematic, personalized learning in the six areas of reading instruction for pre-k thru 5th grade students. Additionally, it delivers norm-referenced performance data and analysis without interrupting the flow of instruction to administer a test. This research-proven, technology-based approach accelerates reading skills development, predicts students' year-end performance and provides teachers with data-driven action plans to help differentiate instruction.

On **April 5th**, all students at your school will have access to Lexia Core5 Reading and/or Lexia PowerUp Literacy. These licenses are being offered as part of Lexia's Back-on-Track initiative offer and will be available through July 31, 2021.

Click here for a brief 2-minute video introduction to the Lexia Core5 Reading.
