Feel free to contact librarian Anna Watkins at watkins.anna@paideiaschool.org if you have any questions over the summer.

In years past, the summer reading program has focused on only one book. This year we are fortunate to have two authors visit the junior high at the beginning of the year, and we encourage all students to read the books by both authors: *Tristan Strong Punches a Hole in the Sky*, by Kwame Mbalia, and *Wink*, by Rob Harrell. These are wonderful novels from two different genres, one a fantasy drawing on folk heroes and lore from African American history, the other a hilarious but heart wrenching story about surviving middle school -- and an unthinkable diagnosis -- while embracing life's weirdness. Students should then complete ONE project option -- for either *Tristan Strong Punches a Hole in the Sky* or *Wink*. **Descriptions of all 6 project options are linked in the instructions on the page to the left.**

In addition to the 2 featured books, students should then read a minimum of 2 more free-choice books (a total of 4 books) to complete the summer reading program, and complete a Reading Response form for each of the three non-project books. This summer reading booklet is a guide to hundreds of recommended reads, and you may also read any other book that intrigues you.

How to Complete the Required Reading Assignments

1. a. Read either *Wink* or *Tristan Strong Punches a Hole in the Sky*
b. Complete one project on one of the two books, chosen from the options at <https://bit.ly/PaideiaJHSummer2021-projects>
2. a. Read three additional books. We strongly encourage you to include the other featured book as one of your three additional books
b. Respond to each of the three additional books using this Google form: <http://bit.ly/JH-form>

One form for each book, so you'll do this three separate times.
