

## Masters in Public Health

Our mission is to develop knowledgeable and ethical public health professionals committed to addressing the need for improved health outcomes and overall well-being through education, collaboration, research and community engagement.

### **Become a Public Health Leader!**

> Our world needs public health experts now more than ever. You could be one of the next generation of leaders who protect the well-being of local and global communities. Become a leader and difference-maker within your field as a public health professional.

> According to the Bureau of Labor Statistics, employment of health education specialists and community health workers is projected to increase 13 percent between 2019 and 2029, a much faster rate than for the average occupation.

> The Wingate MPH program prepares you to work in a variety of jobs, such as health educator, community health worker, public health analyst, public health advisor, health program coordinator, program evaluator, research scientist, social service manager, policy analyst, data analyst, health service director and more.

### **Program Overview**

- 42-credit program can be completed in as little as two years or five consecutive semesters
- Program focus is health education and promotion
- Flexible coursework includes live classes and self-driven modules, all delivered online
- Integrative curriculum covers multiple public health concepts to ensure that you are workforce-ready
- Mentorships with accomplished public health faculty and community partners
- Robust field experiences allow you to apply what you're learning
- Course content includes health education and promotion, epidemiology, biostatistics, qualitative and quantitative research methods, data management, health policy and financing, and more
- Fall semester start
- Tuition \$762 per credit (tuition and fees subject to change)
- Online application with no GRE requirement OR application fee!

### **Admission Requirements**

- Bachelor's degree or higher from an accredited college or university.
- Cumulative undergraduate GPA indicative of success in graduate school, generally 3.0 or greater on a 4.0 scale.
- Submission of a completed online application, including official transcripts to all colleges attended, the Essay of Intent/Personal Statement, CV/resume, and two recommendation forms from academic and/or professional references (GRE currently waived because of COVID-19.)
