

Hello...

I want to update you on Resolution 1459, the sewer hookup for Heartland to Bergin Point, was in committee today for the second time and once again it was tabled.

What does that mean?

It means that they are listening to us and not voting yet.

Instead they are taking the time to research and ask questions on whether or not hooking up this "mini city" to the sewers is a good idea.

I ask you as a member of 4 Towns, to help us.

Please sign and share the petition at www.stopheartland.org

(all the information on why we do NOT want this sewer hookup is explained in the petition)

We need thousands of people to sign this petition. We are approaching 800 and we need to be at 5000 or more.

Signatures = votes

And with thousands signing it, then they will listen that much more.

Please call and/or email your concerns to the legislatures of the Public Works committee.

I will be drafting a new letter to send shortly.

Lastly, come to the next committee meeting on Monday July 9th at 2pm. We will meet in front of the building at 1pm to show we are opposed. This meeting is in Smithtown so we need ALL our members to try and make it to the meeting.

Strength in numbers.

We are working on getting an online platform ready so we can accept donations towards our second litigation. For now please mail in donations or email and we can arrange for it to be picked up.
