**Project Spotlight:**

**DOLPHIN ATTRACTION: Simon Baker and Alex Olsen**

MKA is proud to present the Class of 2021, a new, interactive, and immersive project that explores the diverse worlds of art, design, and technology. The project brings together artists, designers, and technologists from around the world to create a unique experience that challenges traditional boundaries and pushes the boundaries of what is possible. Through the collaboration of these diverse entities, the project will present a ground-breaking approach to exhibiting art in the 21st century. 

"This project is a unique opportunity to bring together artists, designers, and technologists from around the world to create a new kind of interactive experience," said Simon Baker, one of the project's creators. "We believe that by merging the worlds of art, design, and technology, we can create a truly innovative and unforgettable experience for our visitors."

**WASHINGTON SQUARE CHECK PAVEMENT: Mohamed Awad**

Mohamed Awad is a renowned artist who has been exploring the intersection of art and technology for over a decade. His latest project, **Washington Square Check Pavement**, is a stunning example of his creative process and his commitment to pushing the boundaries of what is possible in the realm of art and technology.

"As an artist, I am always looking for new ways to explore the intersection of art and technology," said Awad. "I believe that by merging these two fields, we can create truly unique and innovative works that challenge our perception of what art can be."

**LESSONS LEARNED:**

* "Collaboration is key to developing cutting-edge projects.*
* "Artists and technologists need to work closely together to create truly innovative experiences."* 
* " piled on with the help of our partners in the project, we were able to achieve something truly amazing."* 
* "The future of art is bright, and I can't wait to see what we'll be able to create with the help of our partners in the project."* 

**About MKA:**

MKA is a creative and collaborative art and design firm based in New York City. We are dedicated to exploring the intersection of art and technology and creating innovative, immersive experiences for our visitors. 

"We believe that by merging the worlds of art and technology, we can create truly unique and unforgettable experiences," said Michael Kramer, the founder of MKA. "We are excited to share our latest project, **Washington Square Check Pavement**, with our visitors and to see how it will be received."
